# 6. Accidental Release Measures

Personal Precautions	: Keep unprotected and unnecessary personnel out of spill area. Ventilate area before attempting cleanup.
Protective Equipment	: Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not needed if engineering controls are adequate. If needed, use NIOSH-approved respiratory protection based on actual or potential airborne concentrations. Eyewash and emergency shower should be available in work area.
Emergency Procedures	: Stop spill at its source. Construct temporary dikes of dirt, sand or appropriate readily available material to prevent spreading of material. Keep from entering storm sewers and ditches which lead to waterways.
Methods and Materials for Containment and Cleanup	: Absorb spilled liquid with polypads or other absorbent materials. Clean up with non-combustible absorbent, such as sand or soil. Shovel up and place in suitable containers. Dispose of at an appropriate waste disposal facility according to applicable regulations.

# 7. Handling and Storage
