SECTION 4

FIRST AID MEASURES

[DESCRIPTIONS]:

General:	In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
Inhalation:	Remove to fresh air. Keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth.
Eyes:	Irrigate copiously with clean fresh water for at least 10 minutes, holding the eyelids apart and seek medical attention.
Skin:	Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser. Do NOT use solvents or thinners.
Ingestion:	If accidentally swallowed, obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

[MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED]:

Overview:	No data available. See Section 2 for further details.
Eyes:	Causes serious eye irritation.
Skin:	Harmful in contact with skin. Causes skin irritation.
Ingestion:	Harmful if swallowed.

SECTION 5

FIRE FIGHTING MEASURES

Extinguishing Media:	Recommended extinguishing media: alcohol resistant foam, CO ₂ powder, water spray. Do not use water jet.
Special Hazards:	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces - No smoking. Avoid breathing dust/fume/gas/mist/vapors/spray. Can be dangerous when exposed to extreme heat and flame. Under combustion this product may form explosive peroxides of unknown stability.
Advice For Firefighters:	Evacuate area. Prevent contamination from run-off of adjacent areas, streams, drinking water and sewers. Do not flush down sewers or other drainage systems. Exposed firefighters must wear full turnout gear and positive pressure self-contained breathing apparatus. Use water-spray to cool fire exposed surfaces and personnel.
ERG Guide No.	---

SECTION 6

ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures:	Remove sources of ignitions, do not turn lights, or unprotected electrical equipment, on or off. In case of a major spill, or spillage in a confined space, evacuate the area and check that solvent vapor levels are below the Lower Explosive Limit (LEL) before re-entering.
Environmental Precautions:	Do not allow spills to enter drains or water courses.
Methods and Material For Containment and Cleaning Up:	Ventilate the area and avoid breathing vapors. Take the personal protective measures listed in Section 8. Contain and absorb spillage with non-combustible materials (e.g. sand/earth/vermiculite). Place in closed containers outside buildings and dispose of according to the Waste Regulations (see Section 13.) Clean, preferably with a detergent. Do not use solvents. Do not allow spills to enter drains or water courses. If drains, sewers, streams or lakes are contaminated, inform the local water company immediately. In the case of contamination of rivers, streams, or lakes, the Environmental Protection Agency should also be informed.

SECTION 7

HANDLING AND STORAGE

Precautions For Safe Handling:	Handle containers carefully to prevent damage and spillage. See Section 2 for further details [PREVENTION].
Conditions For Safe Storage:	Handle containers carefully to prevent damage and spillage. Do not get in eyes, on skin or on clothing. Do not breathe vapors or mists. Keep container closed. Use only with adequate ventilation. Wear protective equipment. Personnel handling this material should be well trained in the use of personal protective equipment, safe handling methods, potential hazards and first aid requirements. AVOID contact with skin or eyes. Ensure that an eyewash station and safety shower is near place of use. Do not expose to extreme temperature/ flame or other ignition sources. Keep Cool. Wash hands before eating, drinking, smoking. Remove contaminated clothing and clean before re-use. Destroy contaminated belts and shoes and other items that cannot be decontaminated. See Section 2 for further details [STORAGE].
Incompatible Materials:	Aluminum, alkalis, salts of strong bases, strong acids, strong oxidizers. See Section 2 for further details [STORAGE].

SECTION 8**EXPOSURE CONTROLS/PERSONAL PROTECTION**

Carcinogen Data: This product contains no Ingredients that are suspected of being or known to be a carcinogen under OSHA, NTP, or IARC in percentages greater than 0.1%.

Exposure Data: Ingredients with established limits for exposure are listed below:

CAS No.	Ingestion	Source	Value
0000111-76-2	2-Butoxyethanol	OSHA	TWA 50 ppm (240mg/m3) [skin]
		ACGIH	TWA 20 ppm (revised 2003)
		NIOSH	TWA 5 ppm (24mg/m3) [skin]

[EXPOSURE CONTROLS]:

Respiratory: If workers are exposed to concentrations above the exposure limit they must use the appropriate, certified respirators.

Eyes: Wear safety eyewear (e.g. safety spectacles/goggles/visors) to protect against the splash of liquids.

Skin: Overalls, which cover the body, arms, and legs, should be worn. Skin should not be exposed. All parts of the body should be washed after contact.

Engineering Controls: Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates, and any vapor below occupational exposure limits, suitable respiratory protection must be worn.

Other Work Practices: No data available. See Section 2 for further details [PREVENTION].
