4.3 Indication of Need for Immediate Medical Attention:	If poisoning is suspected, or any symptoms are serious, immediately contact the poison control center, physician, or nearest hospital for instructions. Inform the contact of the name of the product, the type and amount of exposure, and symptoms the patient is experiencing. Seek medical advice if severe or persistent eye or skin irritation occurs.	

5. FIRE FIGHTING MEASURES

5.1 Suitable Extinguishing Media:	Use multi-purpose dry chemical, CO ₂ , or foam extinguisher to extinguish a small fire in accordance with your company's established expectations.
Unsuitable Extinguishing Media:	Class A-only fire extinguishers, such as water based extinguishers, are not ideal for small fires on this material.
5.2 Specific Hazards Arising from the Chemical:	Oxides of carbon, smoke, and fume may be produced under fire conditions.
5.3 Special Protective Actions for Fire Fighters:	To fight larger fires, use full protective clothing and self-contained breathing apparatus. Evacuate nonessential personnel from area to prevent exposure to fire, smoke, fumes, or products of combustion. Dike and collect water runoff.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions, Protective Equipment, and Emergency Procedures:	Using appropriate personal protective equipment specified in Section 8 – Personal Protective Equipment, absorb any spilled material and place in a container for disposal. Disposal methods should be consistent with information in Section 13 – Disposal Considerations.
6.2 Environmental Precautions:	Keep spill away from drains, sewers, and bodies of water.
6.3 Methods and Material for Containment and Cleanup:	Using safe handling precautions established elsewhere in this material safety data sheet, attempt to control the spill at its source if safe to do so. Control the release of material to prevent contamination of soil or bodies of water. Cover spilled liquid material with a suitable oleophilic absorbent and collect in a suitable container for disposal. Sweep up any spilled dry or dried material or absorbent and collect for disposal. Clean area with detergent, absorb wash water with absorbents, and collect in a suitable container for disposal.
