

# SAFETY DATA SHEET

## DREXEL DICAMBA HERBICIDE

### Section 1: Material Identification

**Product Name:** Drexel Dicamba Herbicide

**EPA Reg No.:** 19713-624

**CAS NO:** 2300-66-5

**Formula:** C<sub>8</sub>H<sub>6</sub>Cl<sub>2</sub>O<sub>2</sub>C<sub>2</sub>H<sub>7</sub>N

**Company:** Drexel Chemical Company  
1700 Channel Avenue  
Memphis, TN 38106

**Identifiers:**

**EINECS:** 217-635-6 (Dicamba)

**RTECS:** DG7525000 (Dicamba)

**DOT information:** See Section 14 for Transportation Information

**Emergency Telephone Number:**

CHEMTREC	Drexel Chemical Co.
Tel: 1-800-424-9300	901-774-4370

This product is an EPA FIFRA registered pesticide. Some of the classifications on this SDS are not the same as the FIFRA label. Certain sections of this SDS are superseded by federal law governed by EPA for a registered pesticide. Please see **Section 15: REGULATORY INFORMATION** for explanation.

### Section 2: Hazard Identification (As defined by the OSHA Hazard Communication Standard, 29)

**GHS classification:**

<b>Health Hazards:</b>	Eye damage/irritation	Category 2A
	Skin corrosion/irritation	Category 2
	Sensitization - skin	Category 1B

**GHS label elements:**

**Signal Word:** Warning

**Hazard statements:** Causes serious eye irritation.  
Causes skin irritation.  
May cause an allergic skin reaction.

**Precautionary statements:**

**Prevention:** Wash exposed skin thoroughly after handling.  
Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene, Nitrile/butadiene rubber (“nitrile” or “NBR”) or Polyvinyl chloride (“PVC” or “vinyl”).  
Wear eye protection/face protection.  
Avoid breathing dust/fume/gas/vapor/mist/spray.  
Contaminated work clothing should not be allowed out of the workplace.

**Response:** **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. **If eye irritation persists:** Get medical advice/attention.  
**If on skin:** Wash with plenty of water while removing contaminated clothing and shoes. **If skin irritation or rash occurs:** Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Storage:** Store in a cool, dry, well ventilated and secure area designated specifically for pesticides and away from heat sources.  
Keep in original containers and keep containers closed when not in use.  
Do not store in excessive heat. Do not store near children, food, foodstuffs, drugs or potable water supplies.

**Disposal:** If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities.

**Section 3: Composition Information**

<u>Components</u>	<u>CAS No.</u>	<u>% By Wt.</u>	<u>OSHA PEL</u>	<u>ACGIH TLV</u>
Active Ingredient:				
Dimethylamine salt of Dicamba*	2300-66-5	49.77%	5 mg/m <sup>3</sup>	N/Av
Inert Ingredients:	N/Av	50.23%	N/Av	N/Av

\*Contains 41.35% dicamba acid equivalent

## Section 4: First-Aid Measures

**Have product container or label with you when calling a poison control center or doctor or going for treatment.**

**Eye Contact:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes for at least 10 minutes. Obtain medical attention without delay, preferably from an ophthalmologist.

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have product label with you when calling a poison control center or doctor.

**Skin Contact:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

## Section 5: Fire Fighting Measures

**Fire Hazards:** Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure. Thermal decomposition during a fire can produce fumes and irritating gases.

**Flammability classification (OSHA 29 CFR 1910.1200):** Non-combustible

**Flash point:** N/A

**Lower flammable limit (% by volume):** N/Av

**Upper flammable limit (% by volume):** N/Av

**Fire Fighting Procedures:** Keep people away. Isolate fire and deny unnecessary entry. Evacuate the area and fight the fire upwind from a safe distance to avoid hazardous vapors or decomposition products. Dike and collect fire-extinguishing water to prevent environmental damage and excessive waste runoff.

**Firefighting media:** Use foam, dry chemical, carbon dioxide, or water fog when fighting fires involving this product. Do not use water jet, as this may spread burning material. Minimize the use of water to avoid environmental contamination. Contain all runoff.

**Special Protective Equipment for Firefighters:** Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire-fighting clothing (includes fire-fighting helmet, coat, trousers, boots, and gloves). Use full face shield and operate in positive pressure mode. Avoid contact with this material during firefighting operations. If contact is likely, change to full chemical resistant fire-fighting clothing with self-contained breathing apparatus. If this is not available, wear full chemical resistant clothing with self-contained breathing apparatus and fight fire from a remote location. For protective equipment in post-fire or non-fire clean-up situations, refer to the relevant sections.

**Hazardous Combustion Products:** Hydrogen chloride, organochloride products, oxides of nitrogen, or carbon monoxide.

**NFPA: Health: Flammability: Reactivity:**

2 0 0

(Rating: 4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Insignificant)

## Section 6: Accidental Release Measures

### Steps to be taken if Material is Released or Spilled:

- Contain spilled material if possible. Small spills: Apply a suitable absorbent and sweep up. Collect in suitable and properly labeled containers. Large spills: Contact Drexel Chemical Co. for clean-up assistance. See Section 13, Disposal Considerations, for additional information.

### Personal Precautions:

- Isolate area. Keep unnecessary and unprotected personnel from entering the area. Refer to Section 7, Handling, for additional precautionary measures. Spilled material may cause a slipping hazard. Ventilate area of leak or spill. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

**Environmental Precautions:** Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

## Section 7: Handling and Storage

### KEEP OUT OF REACH OF CHILDREN

**Handling:** **General Handling:** Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Do not swallow. Avoid breathing vapor. Use with adequate ventilation. Wear chemical protective equipment when handling. Keep away from heat, sparks and flame. See Section 8, Exposure Controls and Personal Protection.

**Storage:** Store in a cool, dry area designated specifically for pesticides and away from heat sources. Keep in original containers and keep containers closed when not in use. Do not store in excessive heat. Do not store near children, food, foodstuffs, drugs or potable water supplies.

## Section 8: Exposure Controls / Personal Protection

**Exposure Limits:** TLV Dicamba Technical 5 mg/m<sup>3</sup>

### Personal Protection:

**Eye/Face Protection:** Wear safety glasses with side shields or chemical splash goggles to prevent vapors or mists from entering the eyes. If using a full face shield, always use safety glasses or goggles along with the face shield to ensure adequate protection of the eyes.

**Skin Protection:** Wear long-sleeved shirt, long pants, and shoes plus socks when handling this material. Safety shower should be located in immediate work area. Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly. Items which cannot be decontaminated, such as shoes, belts and watchbands, should be removed and disposed of properly.

**Hand protection:** Use waterproof gloves or gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene, Nitrile/butadiene rubber ("nitrile" or "NBR") or Polyvinyl chloride ("PVC" or "vinyl").

**Respiratory Protection:** Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. When handling in enclosed areas, when large quantities of mists are generated or prolonged exposure is possible in excess of the TLV, use a respirator with either an organic vapor-removing cartridge with a pre-filter approved for pesticides (MSHA/NIOSH) approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G).

**Ingestion:** Avoid ingestion of even very small amounts; do not consume or store food or tobacco in the work area; wash hands and face before smoking or eating.

**Engineering Controls:**

**Ventilation:** When handling this product, proper ventilation is required to maintain exposure below the TLV. Ventilate all transport vehicles prior to unloading. Facilities storing or utilizing this material should be equipped with an eyewash facility and safety shower.

## Section 9: Physical and Chemical Properties

<b>Physical State:</b>	Liquid
<b>Color:</b>	Amber
<b>Odor:</b>	Mild amine
<b>Flash Point:</b>	N/A
<b>Vapor Pressure (mmHg):</b>	18 mm Hg @ 20°C
<b>Boiling Point:</b>	>212°F (100°C)
<b>Vapor Density (air = 1) :</b>	>1.0
<b>Bulk Density (H<sub>2</sub>O = 1):</b>	9.68 Lbs./gal.
<b>Freezing Point:</b>	12°F
<b>Solubility in water (wt. % - weight):</b>	Soluble
<b>pH:</b>	7.5 - 9.5
<b>Viscosity:</b>	N/Av

## Section 10: Stability and Reactivity

**Stability/Instability:** Thermally stable at typical use temperatures and in closed containers.

**Conditions to Avoid:** None known

**Incompatible Materials:** None known

**Hazardous Polymerization:** Will not occur

**Thermal Decomposition:** Decomposition products can include and are not limited to: Carbon oxides, nitrogen oxides, ammonia and halogenated compounds.

## Section 11: Toxicological Information

**Acute Toxicity:**

**Ingestion:**

- LD50, Rat: 2,629 mg/kg

**Dermal (rat):**

- LD50, Rat: >2,000 mg/kg

**Inhalation:**

- LC50, (24h), Aerosol, Rat: >5.4 mg/l

**Eye Irritation (rabbit):**

- Severe eye irritation

**Skin Irritation (rabbit):**

- May cause skin irritation

**Sensitization Skin:**

- May cause dermal sensitization

**Carcinogenicity:**

Not likely to be carcinogenic in humans

**Teratogenicity, mutagenicity, and other reproductive effects:** None known

## Section 12: Ecological Information

**Ecotoxicological data:****Persistence and Degradability:**

- Dicamba dimethylamine salt may volatilize slightly from plants and ground surface but is not considered the major route of chemical dissipation or breakdown. Microbial activity is the primary route of degradation from soil. Laboratory and field studies show that dicamba dimethylamine salt is likely to break down in soil to half of its application concentration between one and 5 weeks. Dicamba dimethylamine salt is expected to degrade in aquatic systems even faster.

**Aquatic Toxicity:**

- Rainbow Trout, 96 hour, LC50: 1,000 mg/L
- Bluegill, 96 hour, LC50: 1,500 ppm
- Daphnia magna, 48 hour, EC50: 1,600 ppm
- Green algae: >100 mg/l

## Section 13: Disposal Considerations

If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities. This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. If the material as supplied becomes a waste, follow all applicable regional, national and local laws.

## Section 14: Transport Information

**DOT Classification:**

- < 207 gallons: Not regulated
- ≥ 207 gallons: UN-3082, Environmentally hazardous substances, liquid, n.o.s., (Dicamba), 9, PG-III, RQ 1,000 lbs.

**ICAO / IATA / IMDG:** Consult appropriate regulations for shipment requirements in the Air and Maritime shipping modes.

**Freight Description:** Agricultural herbicide, liquid, n.o.s.

**ERG Guide:** 171

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

## Section 15: Regulatory Information

**OSHA Hazard Communication Standard:**

- This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**EPA FIFRA INFORMATION:**

- This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemical. The hazard information required on the pesticide label is listed out below. The pesticide label also includes other important information, including directions for use.
- **EPA/CERCLA Reportable Quantity:** 1,000 lbs. Dicamba (CAS: 1918-00-9) (207 gal. of product)

**SARA/TITLE III:**

- **Sec. 302. Extremely Hazardous Substance Notification:** This material is not known to contain any Extremely Hazardous Substances.
- **Sec. 311/312. Hazard Categories:** Immediate health hazard
- **Sec. 313. Toxic Chemical(s):** Dimethylamine dicamba (CAS: 2300-66-5); Dicamba (CAS: 1918-00-9)
- **RCRA Waste Code:** Not applicable

**California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986):**

- Not listed

**Toxic Substances Control Act (TSCA):**

- All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30

## Section 16: Other Information

*Drexel Chemical Company recommends that each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown below. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the*

*product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific SDSs, we are not and cannot be responsible for SDSs obtained from any source other than ourselves. If you have obtained an SDS from another source or if you are not sure that the SDS you have is current, please contact us for the most current version.*

**Date Revised: March 25, 2021**

**Supersedes: April 13, 2017**
