Specific Hazards Arising from the Chemical : On burning, may release toxic and corrosive gases/vapors (phosphorus oxides, potassium oxides).
Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective equipment. Use water spray to keep fire-exposed containers cool.

6. Accidental Release Measures

Personal Precautions : Keep unprotected and unnecessary personnel out of spill area.
Protective Equipment : Impervious gloves, splashproof goggles or face shield, impervious apron and footwear. Eyewash station should be available in work area. Use NIOSH-approved, mist-type canister respirator if mist is present.
Emergency Procedures : Do not contaminate water supplies with spilled material. Dike spill to prevent spreading. Spills may be reported to local, state and Federal authorities.
Methods and Materials for Containment and Cleanup : Contain spill and reuse material, if uncontaminated. If contaminated, absorb material with an absorbent, such as clay or sand, and place in plastic containers for proper disposal.

7. Handling and Storage

Precautions for Safe Handling : Keep container tightly closed. Do not contaminate water supplies, lakes, streams, ponds, drains or sewers by cleaning of equipment, disposal of rinse water, or spillage of product.
Conditions for Safe Storage : Keep out of reach of children. May be stored in unheated areas but keep from freezing. Store at temperatures above 45 Degrees F. at all times. Avoid high temperatures.
