4. First Aid Measures

Eye : Rinse with plenty of running water. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Skin : Wash with soap and water. Get medical attention if irritation develops.

Inhalation : Avoid inhalation of vapor, spray or mist. If inhaled, remove to fresh air. Get medical attention if you feel unwell.

Ingestion : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Get medical attention if adverse health effects persist or are severe.

Indication of Immediate Medical Attention and Special Treatment Needed : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. In case of inhalation of decomposition products in a fire, symptoms may be delayed. Observe for 48 hours.

5. Fire Fighting Measures

Extinguishing Media : Use extinguishing agent suitable for the surrounding fire.
Specific Hazards Arising from the Chemical : In a fire or if heated, a pressure increase will occur and the container may burst.
Special Fire Fight Proc : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Wear self-contained breathing apparatus and full protective equipment.
