## 1. Identification

| Product Name                    | : | Ele-Max Manganese FL 3-0-0                 |
|---------------------------------|---|--|
| Synonyms                        | : | None                                       |
| Product Use                     | : | Foliar Nutritional Liquid Flowable         |
|                                 |   | Helena Chemical Company                    |
| Address                         | : | 225 Schilling Blvd. Collierville, TN 38017 |
| General Information             | : | 901-761-0050                               |
| Transportation Emergency Number | : | CHEMTREC:800-424-9300                      |
|                                 |   |  |

#### 2. Hazard Identification

|                       | No known significant adverse effects or critical hazards.  |
|-----------------------|--|
| Acute Toxicity Oral : | No known significant adverse effects or critical hazards.<br>No known significant adverse effects or critical hazards. |
| •                     | No known significant adverse effects or critical hazards.  |
| Hazard Categories     | Not classified as hazardous.   |
|                       | Not nazardous  |

## 3. Composition / Information on Ingredients

|    | Component<br>Proprietary blend of plant nutrients<br>erived from Urea and Manganese<br>Carbonate.<br>Guaranteed Analysis:<br>Total Nitrogen (N): 3.00%<br>Manganese (Mn): 27.40%<br>Chlorine (CI), Maximum: 0.02% | CAS Number | <b>Weight %</b><br>100.00 |  |
|----|---|------------|---------------------------|--|
| 4. | First Aid Measures  |            |                           |  |
|    |   |            |                           |  |

| Eye                             | Rinse eyes with plenty of running water. Check for and remove any contact        |
|---------------------------------|--|
|                                 | lenses. Get medical attention if irritation occurs.                              |
| Skin                            | : Wash with soap and water. Get medical attention if irritation develops.        |
| Inhalation                      | : Avoid inhalation of vapor, spray or mist. If inhaled, remove to fresh air. Get |
|                                 | medical attention if you feel unwell.  |
| Ingestion                       | Wash out mouth with water. If material has been swallowed and the exposed        |
|                                 | person is conscious, give small quantities of water to drink. Get medical        |
|                                 | attention if adverse health effects persist or are severe.                       |
| Indication of Immediate Medical | Treat symptomatically. Contact poison control center or doctor immediately if    |
| Attention and Special Treatment | large quantities have been ingested or inhaled. In case of inhalation of         |
| Needed                          | decomposition products in a fire, symptoms may be delayed. Observe for 48        |
|                                 | hours.   |

| 5. Fir | e Fia | htino | a Measures |
|--------|-------|-------|------------|
|--------|-------|-------|------------|

| Extinguishing Media               | : Use an extinguishing agent suitable for the surrounding fire.                                    |
|-----------------------------------|--|
| Specific Hazards Arising from the | : In a fire or if heated, a pressure increase will occur and the container may                     |
| Chemical                          | burst.   |
| Special Fire Fight Proc           | : Promptly isolate the scene by removing all persons from the vicinity of the                      |
|                                   | incident if there is a fire. Wear self-contained breathing apparatus and full protective clothing. |

Report Date **30-Jan-15** 

Page 2 of 4

| Personal Precautions                                 | : Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material.                         |
|--|--|
| Protective Equipment                                 | : Eyewash station, emergency shower, splashproof goggles, chemical-resistant gloves, impervious apron and footwear. Use NIOSH-approved respirator if needed.   |
| Emergency Procedures                                 | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.  |
| Methods and Materials for<br>Containment and Cleanup | : Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material and place in appropriate waste containers for proper disposal. |

| 7. Handling and Storage       |   |
|-------------------------------|---|
|                               |   |
| Precautions for Safe Handling | : Eating, drinking and smoking should be prohibited in areas where this material<br>is handled, stored and processed. Workers should wash hands and face before<br>eating, drinking and smoking. Remove contaminated clothing and protective<br>equipment before entering eating areas. |
| Conditions for Safe Storage   | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, food and drink. Keep container tightly closed and sealed until ready for use.                       |

# 8. Exposure Controls / Personal Protection

| -                             | <ul> <li>Not available for this mixture.</li> <li>Good general ventilation should be sufficient to control worker exposure to<br/>airborne contaminants.</li> </ul> |
|-------------------------------|---|
| Personal Protective Equipment | : Eyewash station, emergency shower, splashproof goggles, chemical-resistant gloves, impervious apron and footwear. Use NIOSH-approved respirator if needed.        |

## 9. Physical and Chemical Properties

| Flash Point, <sup>o</sup> F<br>Boiling Point, <sup>o</sup> F<br>Melting Point(Freezing point), <sup>o</sup> C<br>Vapor Pressure, mm Hg @ 20 <sup>o</sup> C<br>Vapor Density<br>Solubility in Water<br>Molecular Formula<br>Density, g/mL @ 25 <sup>o</sup> C<br>Evaporation Rate(Butyl Acetate = | <ul> <li>Not determined</li> <li>-5 Degrees C.</li> <li>Not determined</li> <li>Not determined</li> <li>Not determined</li> <li>Not applicable, formulated mixture.</li> <li>1.827</li> </ul> |
|--|---|
| 1)<br>Octanol/Water Partition  | : Not determined  |
| Coefficient<br>PH  | · 9   |
| ہم<br>Flammable Limits (approximate  |   |
| volume % in air)   |   |
| Auto-ignition Temperature  |   |
| Decomposition temperature  | : Not determined  |

Report Date **30-Jan-15** 

Page 3 of 4

#### 10. Stability and Reactivity

| Reactivity               | : No specific test data related to reactivity.                                    |
|--------------------------|---|
| Chemical Stability       | : Stable  |
| Hazardous Decomposition  | : Under normal conditions of storage and use, hazardous decomposition products    |
| Products                 | should not be produced.   |
| Hazardous Polymerization | : Will not occur  |
| Conditions to Avoid      | : Avoid contamination by any source including metals, dust and organic materials. |
| Incompatible Materials   | : Urea reacts with calcium hypochlorite or sodium hypochlorite to form the        |
|                          | explosive nitrogen trichloride.   |

## 11. Toxicological Information

| Acute Toxicity (Oral LD50) | : No known significant effects or critical hazards. |
|----------------------------|---|
|                            | : No known significant effects or critical hazards. |
|                            | : No known significant effects or critical hazards. |
| Likely Routes of Exposure  | : Inhalation  |
|                            | : No known significant effects or critical hazards. |
|                            | : No known significant effects or critical hazards. |
|                            | : No known significant effects or critical hazards. |
|                            | : No known significant effects or critical hazards. |
|                            | : No known significant effects or critical hazards. |
| Other Hazards              | : No known significant effects or critical hazards. |

## 12. Ecological Information

| Ecotoxicity                   | : No known significant effects or critical hazards. |
|-------------------------------|---|
| Persistence and Degradability | : No known significant effects or critical hazards. |
| Bioaccumulative Potential     | : No known significant effects or critical hazards. |
| Mobility in Soil              | : Not available                                     |
| Other Adverse Effects         | : No known significant effects or critical hazards. |

#### 13. Disposal Considerations

**Waste Disposal Method** : This material must be disposed of according to Federal, State or Local procedures under the Resource Conservation and Recovery Act.

#### 14. Transport Information

| UN Proper Shipping Name<br>Transport Hazard Class | : Not regulated by DOT, IATA or IMDG.<br>: None   |
|---|---|
| UN Identification Number                          |   |
| Packaging Group                                   | : None  |
| Environmental Hazards                             | : None noted  |
|   | : No special requirements   |
| Special Precautions for                           | : None noted  |
| Transportation                                    |   |
| Freight Classification                            | : Fertilizing Compound, (Manufactured Fertilizer), Liquid, NOIBN (NMFC Item 68140, Sub 6, Class 70) |
