

Report 05-Jun-15 Date

Page 1 of 4

Identification

Product Name: Ele-Max PhosCal-Zin FL 4-15-0

Synonyms: None

Product Use: Foliar Nutritional Liquid Flowable Manufacturer/Supplier: Helena Chemical Company

Address: 225 Schilling Blvd. Collierville, TN 38017

General Information: 901-761-0050

Transportation Emergency Number : CHEMTREC:800-424-9300

Hazard Identification

Signal Word: Warning

Skin Irritation: Causes mild skin irritation. Eye Irritation: Moderate irritant (rabbit). Acute Toxicity Oral : LD50 >40,000 mg/kg (rat) Acute Toxicity Dermal : No information found

Hazard Categories: Oral/Dermal/Inhalation Toxicity-5/5/5; Eye/Skin Irritation-2A/3; Aquatic

Tox (Acute/Chronic)-1/2

Hazard Statement: May be harmful if swallowed

May be harmful in contact with skin Causes serious eye irritation Causes mild skin irritation May be harmful if inhaled Very toxic to aquatic life

Toxic to aquatic life with long lasting effects

Composition / Information on Ingredients

Component **CAS Number** Weight % 100.00

Proprietary blend of plant nutrients derived from Urea, Calcium Phosphate, Calcium Carbonate and Zinc Phosphate. Guaranteed Analysis:

Total Nitrogen (N): 4.00% Available Phosphate (P2O5): 15.00%

Calcium (Ca): 13.00%

Zinc (Zn): 7.70%

First Aid Measures

Eve: Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes.

Remove contact lenses, if present, after first 5 minutes, then continue rinsing

eye. Call a poison control center or doctor for further treatment advice.

Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for

15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance,

then give artificial respiration, preferably mouth-to-mouth, if possible. Call a

poison control center or doctor for further treatment advice.

Report 05-Jun-15 Date

2 of 4 Page

Ingestion: Call a poison control center or doctor immediately for treatment advice. Have

person sip a glass of water if able to swallow. Do not induce vomiting unless told

to by a poison control center or doctor. Do not give anything by mouth if

Indication of Immediate Medical : Treat symptomatically. Contact poison control center if large quantities have

Attention and Special Treatment Needed been ingested or inhaled. In case of inhalation of decomposition products in a

fire, symptoms may be delayed. Observe for 48 hours.

Fire Fighting Measures

Extinguishing Media: Use an extinguishing agent suitable for the surrounding fire.

Specific Hazards Arising from the : In a fire or if heated, a pressure increase will occur and container may burst. Chemical

This material is very toxic to aquatic life. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be

contained.

Special Fire Fight Proc : Promptly isolate the scene by removing all persons from the vicinity of the

incident if there is a fire. Wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in a

positive-pressure mode.

Accidental Release Measures

Personal Precautions: Evacuate surrounding areas. Keep unnecessary and unprotected personnel

from entering. Do not touch or walk through spilled material. Put on appropriate

personal protective equipment.

Protective Equipment : Eyewash station, emergency shower, chemical-resistant gloves, splashproof

goggles, impervious apron and footwear. Air-purifying respirator, if needed.

Emergency Procedures: Avoid dispersal of spilled material and runoff and contact with soil, waterways,

drains and sewers. May be harmful to environment if released in large

Methods and Materials for

Containment and Cleanup

: Stop leak if without risk. Move containers from spill area. Absorb with an inert dry material, collect and place in an appropriate waste container for disposal.

Handling and Storage

Precautions for Safe Handling: Keep out of reach of children. Keep container tightly closed, do not allow water

to be introduced to the contents of this container. Do not contaminate water

sources by cleaning of equipment or disposal of spray waste.

Conditions for Safe Storage : Keep in a cool, dry chemical storage area, out of reach of children and livestock.

Protect from frost. Store at temperatures above 32 Degrees F.

Exposure Controls / Personal Protection

TLV/PEL: Not established

Appropriate Engineering Controls : Good general ventilation should be sufficient.

Personal Protective Equipment : Eyewash station, emergency shower, chemical-resistant gloves, splashproof

goggles, impervious apron and footwear. Air-purifying respirator, if needed.

Physical and Chemical Properties

Odor/Appearance: White liquid; odor not determined.

Flash Point, °F : Not flammable

Report 05-Jun-15

Page 3 of 4

Boiling Point, ⁰F : Not determined Melting Point(Freezing point), ⁰C : <0 Degrees C. Vapor Pressure, mm Hg @ 20 ⁰C : Not determined Vapor Density : Not determined

Vapor Density : Not determined Solubility in Water : Not determined

Molecular Formula : Not applicable, formulated mixture.

Density, g/mL @ 25 °C : 1.565

Evaporation Rate(Butyl Acetate = : Not determined

1)

Octanol/Water Partition : Not determined

Coefficient

pH: 8.8

Flammable Limits (approximate : Not determined

volume % in air)

Auto-ignition Temperature : Not determined Decomposition temperature : Not determined

10. Stability and Reactivity

Reactivity: No specific test data related to reactivity.

Chemical Stability: Stable

Hazardous Decomposition : Under normal conditions of storage and use, hazardous decomposition products

Products should not be produced.

Hazardous Polymerization: Will not occur

Conditions to Avoid: Avoid contamination by any source including metals, dust and organic materials.

Incompatible Materials: Urea reacts with calcium hypochlorite or sodium hypochlorite to form the

explosive nitrogen trichloride.

11. Toxicological Information

Acute Toxicity (Oral LD50) : >40,000 mg/kg. May be harmful if swallowed.

Acute Toxicity (Dermal LD50): No data available. May be harmful in contact with skin.

Acute Toxicity Inhalation LC50 : No data available. May be harmful if inhaled. Exposure to decomposition

products may pose a hazard.

Likely Routes of Exposure: Not available.

Skin Irritation: Causes mild skin irritation.

Eye Irritation: Moderate irritant (rabbit). Causes serious eye irritation.

Skin Sensitization: No known significant effects or critical hazards.

Carcinogenic: None currently known.

Chronic Effects: No known significant effects or critical hazards.

Other Hazards : CA Prop 65 Warning: This product contains chemicals known to the State of

California to cause cancer and birth defects or other reproductive harm.

12. Ecological Information

Ecotoxicity: Very toxic to aquatic life (Acute). Toxic to aquatic life with long lasting effects

(chronic).

Persistence and Degradability: No information found
Bioaccumulative Potential: No information found

Mobility in Soil : No information found Other Adverse Effects : No information found

13. Disposal Considerations

Report 05-Jun-15

Page 4 of 4

Waste Disposal Method : This material must be disposed of according to Federal, State or Local

procedures under the Resource Conservation and Recovery Act.

14. Transport Information

UN Proper Shipping Name: Not regulated by DOT. Regulated by IATA and IMDG as UN3082,

Environmentally Hazardous Substance, Liquid, n.o.s. (trizinc

bis(orthophosphate)), 9, PG III, Marine Pollutant

Transport Hazard Class : Not regulated by DOT UN Identification Number : Not regulated by DOT Packaging Group : Not regulated by DOT

Environmental Hazards: Marine Pollutant under GHS (IMDG and IATA)

Transport in Bulk : Not regulated by DOT

Special Precautions for: Regulated as Marine Pollutant for international shipping.

Transportation

Freight Classification: Fertilizing Compound, (Manufactured Fertilizer), Liquid, NOIBN (NMFC Item

68140, Sub 6, Class 70)

15. Regulatory Information

National Fire Protection

Association Rating

Health: 1 Fire: 0 Reactivity: 0

Rating Level: (4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Minimum)

S.A.R.A Title III Hazard : Classification (Yes/No)

Immediate(Acute) Health: Y Delayed (Chronic) Health: N Sudden Release of N

Pressure: Fire: N Reactive: N

16. Other Information

Data of Preparation/Revision: 05-June-2015
