# Tenkoz, Inc. Safety Data Sheet

Revision Date: 01-13-21

Version 1.1

# 1. IDENTIFICATION

**Product Identifier** 

Product Name Govern® Insecticide

**Registration Number** EPA Reg. No. 93182-7-55467

UN/ID No UN3018

Recommended use of the chemical and restrictions on use

Recommended Use Liquid insecticide for agricultural insect control. It is diluted with water prior to use. Refer to

product label for further details.

Details of the supplier of the safety data sheet

Manufacturer Address Tenkoz, Inc.

1725 Windward Concourse, Suite 410

Alpharetta, GA 30005

**Emergency Telephone Number** 

Emergency Telephone (24 hr) MEDICAL EMERGENCY, TRANSPORTATION OR SPILL (24 hr):

CHEMTREC (800) 424-9300

## 2. HAZARDS IDENTIFICATION

**Emergency Overview** This chemical is a product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-EPA registered chemicals. Please see Section 15 for additional EPA information.

Appearance Light yellow liquid Physical state Liquid Odor Slight Petroleum-like

#### Classification

Acute toxicity - Oral	Category 4
Acute toxicity - Inhalation (Vapors)	Category 3
Aspiration toxicity	Category 1
Flammable Liquids	Category 4

#### **Signal Word**

**Danger** 

#### **Hazard statements**

Harmful if swallowed Toxic if inhaled May be fatal if swallowed and enters airways Combustible liquid

Revision Date: 01-13-2021 Govern® Insecticide

#### **Precautionary Statements - Prevention**

Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Avoid breathing dust/fume/gas/mist/vapors/spray Use only outdoors or in a well-ventilated area Keep away from heat/sparks/open flames/hot surfaces. — No smoking Wear protective gloves/protective clothing/eye protection/face protection

#### **Precautionary Statements - Response**

IF INHALED: Remove person to fresh air and keep comfortable for breathing

Call a POISON CENTER or doctor

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician

Do NOT induce vomiting

In case of fire: Use CO2, dry chemical, or foam for extinction

# Precautionary Statements - Storage

Store locked up

Store in a well-ventilated place. Keep container tightly closed

# Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

#### Other hazards

Very toxic to aquatic life with long lasting effects

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	Weight-%
Aromatic solvent	64742-95-6	55
Chlorpyrifos	2921-88-2	45

<sup>\*\*</sup>If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.\*\*

## 4. FIRST AID MEASURES

# First Aid Measures

Provide this SDS to medical personnel for treatment. General Advice

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Call **Eye Contact** 

a poison control center or doctor for treatment advice.

**Skin Contact** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20

mintues. Call a poison control center or doctor for treatment advice.

Inhalation Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give

artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre

or doctor for further treatment advice.

Revision Date: 01-13-2021 Govern® Insecticide

Ingestion

Immediately call a poison center or doctor/physician. Do not induce vomiting unless told to do so by a poison control center or doctor. Do NOT give liquids. Never give anything by

mouth to an unconscious person.

#### Most important symptoms and effects

**Symptoms** Harmful if swallowed. Toxic if inhaled. May be fatal if swallowed and enters airways.

#### Indication of any immediate medical attention and special treatment needed

Notes to Physician Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. If exposed, plasma and red blood cell cholinesterase tests may indicate significance of exposure (baseline data are

> useful). Atropine, only by injection, is the preferable antidote. Oximes, such as 2-PAM/protopam, may be therapeutic if used early; however, use only in conjunction with atropine. In case of severe acute poisoning, use antidote immediately after establishing an open airway and respiration. Note: Contains Petroleum Distillate - vomiting may cause

aspiration pneumonia.

#### 5. FIRE-FIGHTING MEASURES

## Suitable Extinguishing Media

Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam. Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foams (including AFFF) or protein foams may function, but will be less effective.

Unsuitable Extinguishing Media Do not use direct water stream.

## Specific Hazards Arising from the Chemical

Not determined.

#### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

**Personal Precautions** Isolate area. Evacuate personnel to safe areas. Stay upwind and away from spill. Avoid

contact with skin, eyes or clothing. Use personal protection recommended in Section 8.

Environmental precautions

**Environmental precautions** See Section 12 for additional Ecological Information.

## Methods and material for containment and cleaning up

**Methods for Containment** Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up Absorb spills with an absorbent material such as HAZORB, ZORBALL, or dirt. Thoroughly

wash body areas, which come in contact with this product. Contain spill to keep out of sewers. Report large spills to CHEMTREC: 1 (800) 424-9300. Vapor explosion hazard, keep out of sewers. Eliminate all sources of ignition in vicinity of spill or released vapor to avoid fire or explosion. Pump with explosion-proof equipment. If available, use foam to

smother or suppress.

# 7. HANDLING AND STORAGE

## Precautions for safe handling

Advice on Safe Handling Handle in accordance with good industrial hygiene and safety practice. Use personal

protection recommended in Section 8. Avoid contact with skin, eyes or clothing. Avoid breathing dust/fume/gas/mist/vapors/spray. Empty containers retain product residue and can be hazardous. Do not cut, grind, weld, or drill on or near this container. Use non-sparking hand tools and explosion-proof electrical equipment. Avoid excessive heat

and ignition sources.

## Conditions for safe storage, including any incompatibilities

Storage Conditions Keep container tightly closed and store in a cool, dry and well-ventilated place. Store locked

up.

**Incompatible Materials** Oxidizing materials. Bases.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

# Exposure Guidelines

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Chlorpyrifos 2921-88-2	TWA: 0.1 mg/m³ inhalable fraction and vapor	(vacated) TWA: 0.2 mg/m³ (vacated) S*	TWA: 0.2 mg/m³ STEL: 0.6 mg/m³
	S*		

#### **Appropriate engineering controls**

**Engineering Controls** Showers. Eyewash stations. Ventilation systems.

#### Individual protection measures, such as personal protective equipment

Eye/Face Protection Use chemical goggles. Refer to the product label for additional personal protective clothing

and equipment.

**Skin and Body Protection** Wear protective gloves and protective clothing. Selection of specific items such as gloves,

boots, apron, or full-body suit will depend on operation.

**Respiratory Protection** Atmospheric levels should be maintained below the exposure guideline.

When respiratory protection is required, use a positive-pressure supplied-air respirator. For emergency and other conditions where the exposure guideline may be greatly exceeded, use an approved positive-pressure self-contained breathing apparatus or

positive-pressure airline with auxiliary self-contained air supply.

In confined or poorly ventilated areas, use an approved positive-pressure supplied-air

respirator.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

## Information on basic physical and chemical properties

Physical state Liquid

AppearanceLight yellow liquidOdorSlight Petroleum-likeColorLight yellowOdor ThresholdNot determined

PropertyValuesRemarks • MethodpH5.5(as an aqueous dispersion)

Melting Point/Freezing Point Not determined

Boiling Point/Boiling Range 236 °C / 456 °F

Flash Point 80-82 °C / 176-181 °F

Evaporation Rate Not determined Flammability (Solid, Gas) Not determined

Flammability Limits in Air

**Upper Flammability Limits** 6% (solvent)

Lower Flammability Limit 1%

**Vapor Pressure** 2 mmHg @38°C **Vapor Density** Not determined **Relative Density** Not determined **Water Solubility** Not determined Solubility in other solvents Not determined **Partition Coefficient** Not determined **Auto-ignition Temperature** Not determined **Decomposition Temperature** Not determined **Kinematic Viscosity** Not determined **Dynamic Viscosity** Not determined **Explosive Properties** Not determined **Oxidizing Properties** Not determined

**Other Information** 

**Density** 8.9 lbs/gal

# 10. STABILITY AND REACTIVITY

#### Reactivity

Not reactive under normal conditions.

#### **Chemical Stability**

Unstable at elevated temperatures.

## **Possibility of Hazardous Reactions**

None under normal processing.

Hazardous Polymerization Hazardous polymerization does not occur.

#### **Conditions to Avoid**

Do not expose to temperatures exceeding 50 °C/122°F. Chlorpyrifos undergoes exothermic decomposition at approximately 266°F (130°C) which can lead to higher temperatures and violent decomposition if generated heat is not removed. Generation of gas during decomposition can cause pressure in closed systems. Contains petroleum derivative solvent which will burn.

#### **Incompatible Materials**

Oxidizing materials. Bases.

# **Hazardous Decomposition Products**

Hazardous decomposition products may include and are not limited to hydrogen chloride, ethyl sulfide, diethyl sulfide and nitrogen oxides.

## 11. TOXICOLOGICAL INFORMATION

## Information on likely routes of exposure

**Product Information** 

Eye Contact May cause moderate eye irritation and slight corneal injury. Vapors may irritate eyes.

Skin Contact Prolonged exposure may cause moderate skin irritation. Repeated exposure may cause

skin irritation and allergic skin reactions in some individuals.

Inhalation Excessive exposure may cause irritation to upper respiratory tract and lungs, and central

nervous system depression.

Ingestion Small amounts swallowed incidental to normal handling operations are not likely to cause

injury; however, swallowing amounts larger than that may cause injury.

#### **Component Information**

Chemical Name	hemical Name Oral LD50 Dermal LD50		Inhalation LC50	
Aromatic solvent 64742-95-6	= 8400 mg/kg (Rat)	> 2000 mg/kg (Rabbit)	= 3400 ppm (Rat) 4 h	
Chlorpyrifos 2921-88-2	= 135 mg/kg (Rat)= 82 mg/kg ( Rat)	= 2 g/kg (Rabbit)> 5000 mg/kg ( Rabbit)= 202 mg/kg (Rat)	> 200 mg/m³ (Rat)4 h	

## Information on physical, chemical and toxicological effects

**Symptoms** Please see section 4 of this SDS for symptoms.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization A test in guinea pigs indicated that this product may have weak skin sensitization potential;

however, experience in the manufacture and use of this product has not provided evidence for skin sensitizing properties. The product did not sensitize human subjects when tested at an end-use dilution. A single prolonged exposure is not likely to result in the material

being absorbed through the skin in harmful amounts.

Germ cell mutagenicity Results of in-vitro (test tube) and animal mutagenicity tests on the aromatic solvent have

been negative. Based on a majority of negative data and some equivocal or marginally positive results, the active ingredient is considered to have minimal mutagenic potential.

**Carcinogenicity** Chlorpyrifos did not cause cancer in long-term animal studies.

**Reproductive toxicity**Chlorpyrifos did not interfere with fertility in reproduction studies in laboratory animals.

Some evidence of toxicity to the offspring occurred, but only at a dose high enough to

produce significant toxicity to the parent animals.

**Teratogenicity** Chlorpyrifos did not cause birth defects in laboratory animals.

Aspiration hazard If aspirated (liquid enters the lungs), may cause lung damage or even death due to

chemical pneumonia.

## **Numerical measures of toxicity**

The following values are calculated based on chapter 3.1 of the GHS document . .

ATEmix (oral) 776 mg/kg
ATEmix (dermal) >5000 mg/kg
ATEmix (inhalation-vapor) 2.7 mg/L

## 12. ECOLOGICAL INFORMATION

## **Ecotoxicity**

Very toxic to aquatic life with long lasting effects. This pesticide is toxic to fish, aquatic invertebrates, small mammals and birds. DO NOT apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent aquatic sites. Cover or incorporate spills. DO NOT contaminate water when cleaning equipment of disposing of equipment water or rinsate. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. DO NOT apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

## Persistence/Degradability

The photolysis half-life in water is 3-4 weeks. In the atmospheric environment, material is estimated to have a tropospheric half-life of 1.4 hours. Degradation is expected in the soil environment within days to weeks. Under aerobic soil conditions the half-life is generally 30-60 days.

#### **Bioaccumulation**

Not determined.

#### **Mobility**

Chemical Name	Partition Coefficient
Chlorpyrifos	4.96
2921-88-2	

#### **Other Adverse Effects**

Not determined

# 13. DISPOSAL CONSIDERATIONS

## **Waste Treatment Methods**

Disposal of Wastes Open dumping is prohibited. Improper disposal of excess pesticide, spray mixture, or

rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for

guidance.

Contaminated Packaging Disposal should be in accordance with applicable regional, national and local laws and

regulations.
