- Personal Precautions** : Evacuate spill area and keep unprotected personnel away. Prevent contact with eyes, skin and clothing. Ventilate area. Wear appropriate protective clothing.
- Protective Equipment** : Impervious rubber or plastic gloves, chemical safety glasses, impervious coveralls, apron and boots. Respiratory protection is not normally needed. A safety shower and eyewash station should be available.
- Emergency Procedures** : Keep non-essential personnel away and isolate spill area. Prevent spill from entering sewers and water courses.
- Methods and Materials for Containment and Cleanup** : Carefully shovel or sweep up spilled material and place in appropriate container. Avoid generating dust.

7. Handling and Storage

- Precautions for Safe Handling** : Prevent contact with eyes, skin and clothing. Do not breathe dust. Wear appropriate protective clothing and equipment. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use. Do not reuse containers. Empty containers retain product residues which can be hazardous.
- Conditions for Safe Storage** : Store in a cool, dry, well-ventilated area away from bases and other incompatible materials. Keep container tightly closed. Protect from physical damage.
