	1. Product and Company Ider	ntification	
Product Code:	Z-KEYMO		
Product Name:	KEYLATE MOLYBDENUM		
Frade Name:	KEYLATE MOLYBDENUM; KEYLATE 6% MOLYBDENUM		
Company Name:	Stoller	Phone Number:	
	9090 Katy Freeway Suite 400	1 (713)461-1493	
	Houston, TX 77024		
Web site address:	www.stollerusa.com		
Email address:	compliance@stollerusa.com		
Emergency Contact:	CHEMTREC, In the US and Canada call	1 (800)424-9300	
0	CHEMTREC, From other countries call	+1 (703)527-3887	
Information:		1 (800)539-5283	
Intended Use:	For agricultural use only		
Synonyms:	Chelated micronutrient solution.		
	2. Hazards Identificati	on

Autoignition	Pt:	No data.		
Suitable Ext	inguishing Media			e, or alcohol-resistant foam. Use to local circumstances and the surrounding
Unsuitable E Media:	Extinguishing	None known.		
Fire Fighting	Instructions:	Wear self contained breathing apparatus for fire fighting if necessary. Further information: No data available.		
Flammable F Hazards:	Properties and	Sodium oxides.		
Hazardous (Products:	Combustion	No data available.		
		6. Accidental F	Release Meas	sures
	recautions, quipment and Procedures:	In case of a large spill, clear the affected area and protect people. Such releases shou be responded to by trained personnel using pre-planned procedures. In the event of ar incidental release, minimum Personal Protective Equipment must be worn: latex or rubber gloves and rubber boots, goggles or full face-shield and coveralls or long-sleeve shirt and pants.		
Environmen	tal Precautions:	Do not allow to enter drain	is or waterways.	
Steps To Be Material Is R Spilled:	Taken In Case eleased Or	and recover the product in is clean, use it as intended salvage for proper dispose	to an appropriate o following original al as waste.	allest area possible by diking, scooping, e container, labeling it accordingly. If product label directions; should it get contaminated

	material, then collect in covered, labeled containers and dispose of as dry waste in accordance with Federal, State, and Local waste disposal regulations.		
	7. Handling and Storage		
Precautions To Be Taken in Handling:	Use with adequate ventilation. Avoid breathing (dust, vapor, mist, gas). Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation. Empty containers may contain residual liquid or vapors and therefore should be handled the same as full containers.		
Precautions To Be Taken in Storing:	Inspect all incoming containers before storage to ensure all are properly labeled and not damaged. Keep containers tightly closed when not in use. Store in a cool, dry place, away from direct sunlight, sources of intense heat or where freezing is possible. Store away from food, feed, clothing materials and living quarters. Whenever possible, place chemicals on secondary containers or diked area. Store a maximum of three pails high; do not stack pallets. Store Keylate Micronutrients in fiberglass, polyethylene or polyolefin.		
Other Precautions:	N.A.		
8. Exposure Controls/Personal Protection			

CAS #	Partial Chemical Name	OSHA TWA	ACGIH TWA	Other Limits
17863-38-6	ethanol, 2-amino-2-hydroxy-1,2,3-propanetricar boxylate	No data.	No data.	No data.
7631-95-0	Sodium molybdate(VI)	No data.	No data.	No data.

Recommended Exposure Limits:	N.A.
Respiratory Equipment (Specify Type):	A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. If the respirator is the sole means of protection, use a full-face supplied air respirator.
Eye Protection:	Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.
Protective Gloves:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.
Other Protective Clothing:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
Engineering Controls (Ventilation etc.):	General ventilation is usually adequate. Local exhaust should be used if needed for safe, comfortable working conditions. An eye bath and washing facilities should be readily available.
Work/Hygienic/Maintenance Practices:	Handle in accordance with good industrial hygiene and safety practice. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove all dirty or contaminated clothing and wash it before reusing, as well as any other PPE.
Environmental Exposure Controls:	Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not contaminate water by cleaning of equipment or disposal of equipment wash waters.

	11. Toxicological Information		
Toxicological Information:	Mutagenicity: This product has not been investigated for mutagenic effects. Embryotoxicity: This product has not been investigated for embryotoxic effects. Teratogenicity: This product has not been investigated for teratogenic effects. Reproductive Toxicity: This product has not been investigated for toxic reproductive effects.		
Irritation or Corrosion:	No data available.		
Symptoms related to Toxicological Characteristics:	No data available.		
Sensitization:	The sensitizing properties of this product have not been thoroughly investigated.		
Chronic Toxicological Effects:	The toxicological properties of this material have not been fully investigated.		
Carcinogenicity/Other Information:	The carcinogenic properties of this product have not been thoroughly investigated. The components of this product are not listed as a carcinogenic by CPDB, IARC, NTP, OSHA, CAL/OSHA and ACGIH.		
Carcinogenicity:	NTP? No IARC Monographs? No OSHA Regulated? No		
	12. Ecological Information		
General Ecological Information:	No environmental impact studies have been performed with this product. The available data on this plant nutrient material does not indicate any undue hazard to the environment under anticipated use and storage. All work practices must be aimed at eliminating environmental contamination. Any waste due to spillage or leakage should be contained and disposed of accordingly, see Section 6 "Accidental Release Measures." Due to its nutritional nature, may cause eutrophication if discharged in bodies of water.		
Results of PBT and vPvB assessment:	No data available.		
Persistence and Degradability:	No data available.		
Bioaccumulative Potential:	No data available.		
Mobility in Soil:	No data available.		
Other adverse effects:	No data available.		
	13. Disposal Considerations		
Waste Disposal Method:	This product, if unaltered by use, may be disposed of by treatment at a permitted facility or as advised by your local waste regulatory authority. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification. Avoid contaminating water by disposal of equipment wash water or other product wastes. Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261.3.
