Version	Revision Date:	SDS Number:	Date of last issue: 07/31/2023
1.2	10/11/2023	800080004592	Date of first issue: 03/31/2022

Corteva Agriscience <sup>™</sup> encourages you and expects you to read and understand the entire SDS as there is important information throughout the document. This SDS provides users with information relating to the protection of human health and safety at the workplace, protection of the environment and supports emergency response. Product users and applicators should primarily refer to the product label attached to or accompanying the product container. This Safety Data Sheet adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

#### **SECTION 1. IDENTIFICATION**

Product name	: LANDVisor™ Ultra	
Manufacturer or supplier's	details	
COMPANY IDENTIFICATIO	N	
Manufacturer/importer	: CORTEVA AGRISCIENCE LLC 9330 ZIONSVILLE RD INDIANAPOLIS, IN, 46268-1053 UNITED STATES	
Customer Information Number E-mail address	<ul><li>: 1-800-258-3033</li><li>: customerinformation@corteva.com</li></ul>	
Emergency telephone	: INFOTRAC (CONTRACT 84224). +1 800-992-5994 or +1 317-337-600	9

### Recommended use of the chemical and restrictions on use

Recommended use : End use herbicide product

#### **SECTION 2. HAZARDS IDENTIFICATION**

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)				
Skin sensitization	:	Sub-category 1B		
Specific target organ toxicity - repeated exposure	:	Category 2 (Kidney)		

#### **GHS** label elements

™ ® Trademarks of Corteva Agriscience and its affiliated companies.

Hazaı	rd pictograms		
Signa	l Word	: Warning	·
Hazaı	rd Statements		se an allergic skin reaction. se damage to organs (Kidney) through prolonge posure.
Preca	utionary Statements		reathe dust/ fume/ gas/ mist/ vapors/ spray. nated work clothing must not be allowed out of ptective gloves.
		P314 Get med P333 + P313 If attention.	F ON SKIN: Wash with plenty of soap and water ical advice/ attention if you feel unwell. f skin irritation or rash occurs: Get medical advicent ntaminated clothing before reuse.
		<b>Disposal:</b> P501 Dispose posal plant.	of contents/ container to an approved waste dis-
	<b>hazards</b> known.		

Substance / Mixture : Mixture

#### Components

Chemical name	CAS-No.	Concentration (% w/w)
Triclopyr-2-butoxyethyl ester	64700-56-7	60.45
Balance	Not Assigned	>= 30 - < 40
Balance		>= 30 - < 4

Actual concentration is withheld as a trade secret

#### **SECTION 4. FIRST AID MEASURES**

If inhaled	Move person to fresh air. If person is not breathing, call an emergency responder or ambulance, then give artificial resp ration; if by mouth to mouth use rescuer protection (pocket mask etc). Call a poison control center or doctor for treatme advice.	
In case of skin contact	: Take off contaminated clothing. Wash skin with soap and plenty of water for 15-20 minutes. Call a poison control cent	ter

according to the OSHA Hazard Communication Standard

Version 1.2	Revision Date: 10/11/2023	SDS Numb 800080004	
		Wash c	or for treatment advice. Iothing before reuse. Shoes and other leather items annot be decontaminated should be disposed of 7.
In cas	e of eye contact	20 minutes	es open and rinse slowly and gently with water for 15- ites. Remove contact lenses, if present, after the first 5 , then continue rinsing eyes. Call a poison control or doctor for treatment advice.
lf swa	llowed	ment ac low. Do control	oison control center or doctor immediately for treat- lvice. Have person sip a glass of water if able to swal- not induce vomiting unless told to do so by the poison center or doctor. ive anything by mouth to an unconscious person.
	important symptoms ffects, both acute and ed	: None kr	nown.
Protec	Protection of first-aiders		I responders should pay attention to self-protection the recommended protective clothing (chemical re- gloves, splash protection). tial for exposure exists refer to Section 8 for specific Il protective equipment.
Notes	to physician	Treatme sympton Have th tainer o	cific antidote. Ent of exposure should be directed at the control of ms and the clinical condition of the patient. e Safety Data Sheet, and if available, the product con- r label with you when calling a poison control center or or going for treatment.

### SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	Do not use direct water stream.
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health. Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion prod- ucts	:	During a fire, smoke may contain the original material in addi- tion to combustion products of varying composition which may be toxic and/or irritating.
		Combustion products may include and are not limited to: Nitrogen oxides (NOx)

according to the OSHA Hazard Communication Standard

Vers 1.2	ion Revision Date: 10/11/2023		DS Number: 00080004592	Date of last issue: 07/31/2023 Date of first issue: 03/31/2022
			Hydrogen chloride Carbon oxides	e gas
	Specific extinguishing methods	:	so. Evacuate area. Use extinguishing cumstances and t	ged containers from fire area if it is safe to do measures that are appropriate to local cir- he surrounding environment. o cool unopened containers.
	Further information		Collect contaminated fire extinguishing water separately. The must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.	
	Special protective equipment for fire-fighters	t :		e, wear self-contained breathing apparatus. ective equipment.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.
Environmental precautions	:	If the product contaminates rivers and lakes or drains inform respective authorities. Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained. Prevent from entering into soil, ditches, sewers,underwater. See Section 12, Ecological Information.
Methods and materials for containment and cleaning up	:	Clean up remaining materials from spill with suitable absorb- ant. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, recovered material should be stored in a vented container. The vent must prevent the ingress of water as further reaction with spilled materials can take place which could lead to over- pressurization of the container. Keep in suitable, closed containers for disposal. Wipe up with absorbent material (e.g. cloth, fleece). Neutralize with chalk, alkali solution or ammonia. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

#### Aspiration toxicity

#### Product:

Based on available information, aspiration hazard could not be determined.

#### **Components:**

#### Triclopyr-2-butoxyethyl ester:

Based on physical properties, not likely to be an aspiration hazard.

### SECTION 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

Product:		
		LC50 (Lepomis macrochirus (Bluegill sunfish)): 0.44 mg/l Exposure time: 96 h Method: OECD Test Guideline 203 or Equivalent Remarks: For similar material(s):
		LC50 (Oncorhynchus mykiss (rainbow trout)): 0.984 mg/l Exposure time: 96 h Method: OECD Test Guideline 203 or Equivalent
Toxicity to daphnia and other	:	
aquatic invertebrates		Exposure time: 48 h Method: OECD Test Guideline 202 or Equivalent Remarks: For similar material(s):

#### SECTION 13. DISPOSAL CONSIDERATIONS

<b>Disposal methods</b> Waste from residues	<ul> <li>If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authoritie This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.</li> <li>If the material as supplied becomes a waste, follow all appli-</li> </ul>

#### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

#### **Domestic regulation**

#### 49 CFR Road

Not regulated as a dangerous good

#### Further information

Marine Pollutants assigned UN number 3077 and 3082 in single or combination packaging containing a net quantity per single or inner packaging of 5L or less for liquids or having a net mass per single or inner packaging of 5 KG or less for solids may be transported as non-dangerous goods as provided in section 2.10.2.7 of IMDG code, IATA Special provision A197, and ADR/RID special provision 375.

#### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### Federal Insecticide, Fungicide and Rodenticide Act

EPA Registration Number : 62719-552

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

#### CAUTION

Causes moderate eye irritation Harmful if swallowed Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.
