

# SAFETY DATA SHEET

## 1. Identification

|   |   |                                   |
|---|---|-----------------------------------|
| <b>Product identifier</b>                                     | <b>NDURE™ 2.0</b>   |                                   |
| <b>Other means of identification</b>                          | None.   |                                   |
| <b>Recommended use</b>  | Fertilizer Additive   |                                   |
| <b>Recommended restrictions</b>                               | None known.   |                                   |
| <b>Manufacturer/Importer/Supplier/Distributor information</b> |   |                                   |
| <b>Manufacturer</b>   |   |                                   |
| <b>Company name</b>   | Wilbur-Ellis Company LLC  |                                   |
| <b>Address</b>  | 16300 Christensen Rd. Ste 135<br>Tukwila, WA 98188<br>United States |                                   |
| <b>Telephone</b>  | Branded Products Information  | (800) 500-1698                    |
| <b>E-mail</b>   | SDS@wilburellis.com   |                                   |
| <b>Emergency phone number</b>                                 | Chemtrec - Domestic<br>Chemtrec - International                     | (800) 424-9300<br>+1 703-741-5970 |
| <b>Supplier</b>   | Not available.  |                                   |

## 2. Hazard(s) identification

|                              |   |   |
|------------------------------|---|---|
| <b>Physical hazards</b>      | Not classified.   |   |
| <b>Health hazards</b>        | Skin corrosion/irritation   | Category 2                              |
|                              | Serious eye damage/eye irritation   | Category 1                              |
|                              | Reproductive toxicity   | Category 1B                             |
|                              | Specific target organ toxicity, single exposure                                     | Category 3 respiratory tract irritation |
| <b>Environmental hazards</b> | Not classified.   |   |
| <b>OSHA defined hazards</b>  | Not classified.   |   |
| <b>Label elements</b>        |  |   |

|  |   |  |
|--|---|--|
| <b>Signal word</b>                               | Danger  |  |
| <b>Hazard statement</b>                          | Causes skin irritation. Causes serious eye damage. May cause respiratory irritation. May damage fertility or the unborn child.  |  |
| <b>Precautionary statement</b>                   |   |  |
| <b>Prevention</b>                                | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist/vapors. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.   |  |
| <b>Response</b>                                  | If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. |  |
| <b>Storage</b>                                   | Store in a well-ventilated place. Keep container tightly closed. Store locked up.   |  |
| <b>Disposal</b>                                  | Dispose of contents/container in accordance with local/regional/national/international regulations.   |  |
| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.   |  |
| <b>Supplemental information</b>                  | None.   |  |

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                        | Common name and synonyms | CAS number  | %       |
|--------------------------------------|--------------------------|-------------|---------|
| N-methyl-2-pyrrolidone               |                          | 872-50-4    | 30 - 60 |
| N-(n-butyl)-thiophosphoric triamide  |                          | 94317-64-3  | 15 - 40 |
| Propylene glycol                     |                          | 57-55-6     | 10 - 30 |
| Triethylene glycol monobutyl ether   |                          | 143-22-6    | < 6     |
| Non-hazardous components             |                          | Proprietary | < 2     |
| Tetraethylene glycol monobutyl ether |                          | 1559-34-8   | < 2     |
| Diethylene glycol monobutyl ether    |                          | 112-34-5    | < 0.5   |
| Triethylene glycol                   |                          | 112-27-6    | < 0.1   |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

|   |   |
|---|---|
| <b>Inhalation</b>   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
| <b>Skin contact</b>   | Remove contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.   |
| <b>Eye contact</b>  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention immediately. Continue rinsing.   |
| <b>Ingestion</b>  | Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.   |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Skin irritation. May cause redness and pain.   |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |
| <b>General information</b>  | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. |

### 5. Fire-fighting measures

|  |   |
|--|---|
| <b>Suitable extinguishing media</b>                                  | Alcohol resistant foam. Powder. Carbon dioxide (CO <sub>2</sub> ).                            |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.   |
| <b>Special protective equipment and precautions for firefighters</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| <b>Fire fighting equipment/instructions</b>                          | Move containers from fire area if you can do so without risk.                                 |
| <b>Specific methods</b>  | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| <b>General fire hazards</b>  | No unusual fire or explosion hazards noted.   |

### 6. Accidental release measures

|  |   |
|--|---|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
|--|---|

**Methods and materials for containment and cleaning up**

Use water spray to reduce vapors or divert vapor cloud drift.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions**

Avoid discharge into drains, water courses or onto the ground.

**7. Handling and storage****Precautions for safe handling**

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**

Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

**8. Exposure controls/personal protection****Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

**US. ACGIH Threshold Limit Values**

| Components                                       | Type | Value  | Form                          |
|--|------|--------|-------------------------------|
| Diethylene glycol monobutyl ether (CAS 112-34-5) | TWA  | 10 ppm | Inhalable fraction and vapor. |

**US. Workplace Environmental Exposure Level (WEEL) Guides**

| Components                            | Type | Value    | Form     |
|---------------------------------------|------|----------|----------|
| N-methyl-2-pyrrolidone (CAS 872-50-4) | TWA  | 40 mg/m3 |          |
| Propylene Glycol (CAS 57-55-6)        | TWA  | 10 mg/m3 | Aerosol. |
| Triethylene glycol (CAS 112-27-6)     | TWA  | 10 mg/m3 | Aerosol. |

**Biological limit values****ACGIH Biological Exposure Indices**

| Components                            | Value    | Determinant                      | Specimen | Sampling Time |
|---------------------------------------|----------|----------------------------------|----------|---------------|
| N-methyl-2-pyrrolidone (CAS 872-50-4) | 100 mg/l | 5-Hydroxy-N-methyl-2-pyrrolidone | Urine    | *             |

\* - For sampling details, please see the source document.

**Exposure guidelines****US - California OELs: Skin designation**

N-methyl-2-pyrrolidone (CAS 872-50-4)

Can be absorbed through the skin.

**US WEEL Guides: Skin designation**

N-methyl-2-pyrrolidone (CAS 872-50-4)

Can be absorbed through the skin.

**Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

**Individual protection measures, such as personal protective equipment****Eye/face protection**

Chemical respirator with organic vapor cartridge and full facepiece.

|                                       |  |
|---------------------------------------|--|
| <b>Skin protection</b>                |  |
| <b>Hand protection</b>                | Wear appropriate chemical resistant gloves.  |
| <b>Other</b>                          | Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.   |
| <b>Respiratory protection</b>         | Chemical respirator with organic vapor cartridge and full facepiece.   |
| <b>Thermal hazards</b>                | Wear appropriate thermal protective clothing, when necessary.  |
| <b>General hygiene considerations</b> | Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

## 9. Physical and chemical properties

|   |                           |
|---|---------------------------|
| <b>Appearance</b>                                   | Red or Green liquid       |
| <b>Physical state</b>                               | Liquid.                   |
| <b>Form</b>   | Liquid.                   |
| <b>Color</b>  | Red or Green              |
| <b>Odor</b>   | Slight.                   |
| <b>Odor threshold</b>                               | Not available.            |
| <b>pH</b>   | 8.1 - 8.6 in 10% solution |
| <b>Melting point/freezing point</b>                 | Not available.            |
| <b>Initial boiling point and boiling range</b>      | Not available.            |
| <b>Flash point</b>                                  | Not available.            |
| <b>Evaporation rate</b>                             | Not available.            |
| <b>Flammability (solid, gas)</b>                    | Not available.            |
| <b>Upper/lower flammability or explosive limits</b> |                           |
| <b>Flammability limit - lower (%)</b>               | Not available.            |
| <b>Flammability limit - upper (%)</b>               | Not available.            |
| <b>Explosive limit - lower (%)</b>                  | Not available.            |
| <b>Explosive limit - upper (%)</b>                  | Not available.            |
| <b>Vapor pressure</b>                               | Not available.            |
| <b>Vapor density</b>                                | Not available.            |
| <b>Relative density</b>                             | Not available.            |
| <b>Solubility(ies)</b>                              |                           |
| <b>Solubility (water)</b>                           | Soluble                   |
| <b>Auto-ignition temperature</b>                    | Not available.            |
| <b>Decomposition temperature</b>                    | Not available.            |
| <b>Viscosity</b>                                    | 20 - 30 cP                |
| <b>Other information</b>                            |                           |
| <b>Density</b>                                      | 8.87 lb/gal typical       |
| <b>Explosive properties</b>                         | Not explosive.            |
| <b>Oxidizing properties</b>                         | Not oxidizing.            |

## 10. Stability and reactivity

|   |  |
|---|--|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport.  |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.  |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.  |
| <b>Conditions to avoid</b>                | Avoid temperatures exceeding the decomposition temperature. Avoid temperatures exceeding the flash point. Contact with incompatible materials. |
| <b>Incompatible materials</b>             | Peroxides. Phenols.  |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.   |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |  |
|---------------------|--|
| <b>Inhalation</b>   | May cause irritation to the respiratory system. Prolonged inhalation may be harmful. |
| <b>Skin contact</b> | Causes skin irritation.  |
| <b>Eye contact</b>  | Causes serious eye damage.   |
| <b>Ingestion</b>    | Expected to be a low ingestion hazard.   |

**Symptoms related to the physical, chemical and toxicological characteristics** Severe eye irritation. Permanent eye damage including blindness could result. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Skin irritation. May cause redness and pain.

### Information on toxicological effects

**Acute toxicity** Not known.

| <b>Components</b>                                    | <b>Species</b> | <b>Test Results</b>    |
|--|----------------|------------------------|
| Diethylene glycol monobutyl ether (CAS 112-34-5)     |                |                        |
| <b><u>Acute</u></b>                                  |                |                        |
| <b>Dermal</b>  |                |                        |
| LD50   | Rabbit         | 2764 mg/kg, 24 Hours   |
| <b>Oral</b>  |                |                        |
| LD50   | Rat            | 3306 mg/kg             |
| N-(n-butyl)-thiophosphoric triamide (CAS 94317-64-3) |                |                        |
| <b><u>Acute</u></b>                                  |                |                        |
| <b>Oral</b>  |                |                        |
| LD50   | Rat            | > 2000 mg/kg           |
| N-methyl-2-pyrrolidone (CAS 872-50-4)                |                |                        |
| <b><u>Acute</u></b>                                  |                |                        |
| <b>Dermal</b>  |                |                        |
| LD50   | Rat            | > 5000 mg/kg, 24 Hours |
| <b>Inhalation</b>                                    |                |                        |
| <i>Mist</i>  |                |                        |
| LC50   | Rat            | > 5.1 mg/l, 4 Hours    |
| <b>Oral</b>  |                |                        |
| LD50   | Rat            | 4150 mg/kg             |
| Propylene glycol (CAS 57-55-6)                       |                |                        |
| <b><u>Acute</u></b>                                  |                |                        |
| <b>Dermal</b>  |                |                        |
| LD50   | Rabbit         | > 2000 mg/kg, 24 Hours |
| <b>Oral</b>  |                |                        |
| LD50   | Rat            | 22000 mg/kg            |
| Triethylene glycol (CAS 112-27-6)                    |                |                        |

| Components   | Species | Test Results |
|--------------|---------|--------------|
| Oral<br>LD50 | Rat     | > 5000 mg/kg |

\* Estimates for product may be based on additional component data not shown.

|  |  |
|--|--|
| <b>Skin corrosion/irritation</b>         | Causes skin irritation.  |
| <b>Serious eye damage/eye irritation</b> | Causes serious eye damage.   |
| <b>Respiratory or skin sensitization</b> |  |
| <b>Respiratory sensitization</b>         | Not a respiratory sensitizer.  |
| <b>Skin sensitization</b>                | This product is not expected to cause skin sensitization.  |
| <b>Germ cell mutagenicity</b>            | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. |
| <b>Carcinogenicity</b>                   | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.                                  |

#### IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

#### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

#### US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

|   |   |
|---|---|
| <b>Reproductive toxicity</b>                              | May damage fertility or the unborn child. |
| <b>Specific target organ toxicity - single exposure</b>   | May cause respiratory irritation.         |
| <b>Specific target organ toxicity - repeated exposure</b> | Not classified.                           |
| <b>Aspiration hazard</b>                                  | Not an aspiration hazard.                 |
| <b>Chronic effects</b>                                    | Prolonged inhalation may be harmful.      |

## 12. Ecological information

|                                      |  |
|--------------------------------------|--|
| <b>Ecotoxicity</b>                   | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |
| <b>Persistence and degradability</b> | No data is available on the degradability of this product.   |

#### Bioaccumulative potential

##### Partition coefficient n-octanol / water (log Kow)

|                                   |       |
|-----------------------------------|-------|
| Diethylene glycol monobutyl ether | 0.56  |
| N-methyl-2-pyrrolidone            | -0.54 |
| Propylene glycol                  | -0.92 |

**Mobility in soil** No data available.

**Other adverse effects** No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

|  |  |
|--|--|
| <b>Disposal instructions</b>                 | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.   |
| <b>Local disposal regulations</b>            | Dispose in accordance with all applicable regulations.   |
| <b>Hazardous waste code</b>                  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| <b>Waste from residues / unused products</b> | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).   |
| <b>Contaminated packaging</b>                | Since emptied containers may retain product residue, follow label warnings, if applicable, even after container is emptied. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. |

## 14. Transport information

### DOT

Not regulated as dangerous goods.

### IATA

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not established.

## 15. Regulatory information

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are listed on or exempted from the U.S. EPA TSCA Inventory List.

**Toxic Substances Control Act (TSCA)** All components of the mixture on the TSCA 8(b) inventory are designated "active".

### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

|  |  |
|--|--|
| N-(n-butyl)-thiophosphoric triamide (CAS 94317-64-3) | 1.0 % One-Time Export Notification only.   |
| N-methyl-2-pyrrolidone (CAS 872-50-4)                | 1.0 % Annual Export Notification required. |

### CERCLA Hazardous Substance List (40 CFR 302.4)

|   |         |
|---|---------|
| Diethylene glycol monobutyl ether (CAS 112-34-5)  | Listed. |
| Triethylene glycol monobutyl ether (CAS 143-22-6) | Listed. |

### SARA 304 Emergency release notification

Not regulated.

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### SARA 302 Extremely hazardous substance

Not listed.

**SARA 311/312 Hazardous chemical** Yes

**Classified hazard categories** Skin corrosion or irritation  
Serious eye damage or eye irritation  
Reproductive toxicity  
Specific target organ toxicity (single or repeated exposure)

#### SARA 313 (TRI reporting)

| Chemical name          | CAS number | % by wt. |
|------------------------|------------|----------|
| CERTAIN GLYCOL ETHERS  | 143-22-6   | < 6      |
| N-methyl-2-pyrrolidone | 872-50-4   | 30 - 60  |

### Other federal regulations

#### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Diethylene glycol monobutyl ether (CAS 112-34-5)  
Triethylene glycol monobutyl ether (CAS 143-22-6)

#### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

**Safe Drinking Water Act (SDWA)** Contains component(s) regulated under the Safe Drinking Water Act.

### US state regulations

#### California Proposition 65

**WARNING:** This product can expose you to N-methyl-2-pyrrolidone, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

#### California Proposition 65 - CRT: Listed date/Developmental toxin

N-methyl-2-pyrrolidone (CAS 872-50-4) Listed: June 15, 2001

**US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))**

Diethylene glycol monobutyl ether (CAS 112-34-5)

N-methyl-2-pyrrolidone (CAS 872-50-4)

Triethylene glycol monobutyl ether (CAS 143-22-6)

**16. Other information, including date of preparation or last revision**

**Issue date** 02-03-2017

**Revision date** 12-01-2022

**Version #** 06

**NFPA ratings** Health: 2  
Flammability: 1  
Instability: 0

**NFPA ratings**
