SAFETY DATA SHEET

1. Product and Company Identification

	· · ·
Product identifier	ProAcqua™ Zn EDTA
Other means of identification	Kellus Zinc
Recommended use	For agricultural use
Recommended restrictions	None known.
Manufacturer information	Compass Minerals USA Inc. 9900 West 109th Street, Suite 100 Overland Park, KS 66210 US Phone (913) 344-9200
Supplier	Compass Minerals Manitoba Inc. 6700 Century Avenue Mississauga L5N 6A4 CA http://www. compassminerals.com/ Phone (905) 567-0231 techservicesrequests @compassminerals.com
CHEMTREC	1-800-424-9300
CANUTEC	1-613-996-6666
	2. Hazards Identification
Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.
WHMIS 2015 defined hazards	Not classified
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard atatement	The mixture does not meet the criteria for classification

Signal word	None.
Hazard statement	The mixture does not meet the criteria for classification.
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC)	None known
WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)	None known
Hazard(s) not otherwise classified (HNOC)	None known.

Not applicable.

3. Composition/Information on Ingredients

Mixture

Non hazardous by WHMIS Criteria.

Supplemental information

4. First Aid Measures	
Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.
Skin contact	Rinse skin with water/shower. Get medical attention if irritation develops and persists.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.

Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.	
Indication of immediate medical attention and special treatment needed	Treat symptomatically.	
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek immediate medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.	
	5. Fire Fighting Measures	
Suitable extinguishing media	Alcohol resistant foam. Water fog. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Not available.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.	
Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk.	
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.	
General fire hazards	No unusual fire or explosion hazards noted.	
Hazardous combustion products	None known.	
6. Accidental Release Measures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of dust. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.	
Methods and materials for containment and cleaning up	Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Sweep up or vacuum up spillage and collect in suitable container for disposal. Never return spills in original containers for re-use. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.	
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.	
	7. Handling and Storage	
Precautions for safe handling	Minimize dust generation and accumulation. Avoid breathing dust. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Wash thoroughly after handling. When using do not eat or drink.	
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Keep out of reach of children.	
8. Exposure Controls/Personal Protection		
Occupational exposure limits	No exposure limits noted for ingredient(s).	
Biological limit values	No biological exposure limits noted for the ingredient(s).	
Appropriate engineering controls	Ensure adequate ventilation.	
-	such as personal protective equipment	
Eye/face protection	Wear safety glasses with side shields.	
Skin protection		
Hand protection	Wear suitable gloves. Confirm with a reputable supplier first.	
Other	Wear suitable protective clothing.	
Respiratory protection	Wear dust mask.	
Thermal hazards	Not applicable.	

9. Physical and	l Chemical	Properties
-----------------	------------	------------

Appearance	Powder	
Physical state	Solid.	
Form	Solid	
Color	White	
Odor	Not available.	
Odor threshold	Not available.	
рН	6.6 (10% solution)	
Melting point/freezing point	Not applicable.	
Initial boiling point and boiling range	Not applicable.	
Pour point	Not applicable.	
Specific gravity	0.7 g/cm3	
Partition coefficient (n-octanol/water)	Not applicable.	
Flash point	Not available.	
Evaporation rate	Not applicable.	
Flammability (solid, gas)	Not applicable.	
Upper/lower flammability or exp	losive limits	
Flammability limit - lower (%)	Non-flammable.	
Flammability limit - upper (%)	Non-flammable.	
Explosive limit - lower (%)	Non-explosive.	
Explosive limit - upper (%)	Non-explosive.	
Vapor pressure	Not applicable.	
Vapor density	Not applicable.	
Relative density	0.68	
Solubility(ies)	100 g/l	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not applicable.	
Other information		
Density	0.70 g/cm ³	
10. Stability and Reactivity		
Reactivity	May react with incompatible materials.	
Possibility of hazardous reactions	Hazardous polymerization does not occur.	
Chemical stability	Material is stable under normal conditions.	
Conditions to avoid	Do not mix with other chemicals.	
Incompatible materials	Strong oxidizing agents.	
Hazardous decomposition products	None known.	
	11. Toxicological Information	
	<u> </u>	

	-
Routes of exposure	Eye, Skin contact, Inhalation, Ingestion.
Information on likely routes	of exposure
Ingestion	May cause stomach distress, nausea or vomiting.
Inhalation	May cause respiratory tract irritation.
Skin contact	May cause irritation.

May cause irritation.

Eye contact

Waste from residues / unused products Empty containers or liners may retain some product residues. This material and its container m be disposed of in a safe manner (see: Disposal instructions). Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container emptied. Image: Contaminated packaging Image: Containers of Dangerous Goods Image: Contaminated packaging Image: Containers of Dangerous Goods

Mobility in soil No data available. Mobility in general Not available. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Disposal regulations Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the wast disposal company. Waste from residues / unused products Empty containers or liners may retain some product residues. This material and its container m be disposed of in a safe manner (see: Disposal instructions). Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container emptied. Hat. Transport Information It. Transport Information	Bioaccumulative potential	No data available.
Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. 13. Disposal Considerations Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Local disposal regulations Dispose in accordance with all applicable regulations. Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
