### 4. First Aid Measures

- Eye** : Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for further treatment advice.
- Skin** : Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.
- Inhalation** : Move person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
- Ingestion** : Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if unconscious.
- Indication of Immediate Medical Attention and Special Treatment Needed** : This product is a pyrethroid. If large amounts have been ingested, the stomach and intestines should be evacuated. Treatment is symptomatic and supportive. Digestible fats, oils or alcohol may increase absorption and so, should be avoided.

### 5. Fire Fighting Measures

- Specific Hazards Arising from the Chemical** : None currently known.
- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective gear.

### 6. Accidental Release Measures

- Personal Precautions** : Isolate and post spill area. Wear suitable personal protective equipment.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Wear a filtering mask for dust, splash, mist or spray exposures. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Keep people and animals away from and upwind of spill/leak. Keep material out of lakes, streams, ponds and sewer drains.
- Methods and Materials for Containment and Cleanup** : Dike to prevent runoff. Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.

### 7. Handling and Storage

- Precautions for Safe Handling** : Do not contaminate other pesticides, fertilizers, water, food or feed by storage or disposal.
- Conditions for Safe Storage** : Keep in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Keep out of reach of children and animals. Store in original container only.
