

### DREXEL SEQUESTRA™

#### **Section 1: Material Identification**

Product Name: Drexel Sequestra<sup>™</sup>

GHS product identifier: Potassium Salts and Polymers

Company: Drexel Chemical Company

1700 Channel Avenue Memphis, TN 38106

Recommended use: Water Conditioner, Sequestering Agent

**Recommended restrictions:** None available

Synonyms: None available

**Emergency Telephone Number:** 

ChemTrec Drexel Chemical Company

Tel: 1-800-424-9300 901-774-4370

#### Section 2: Hazard Identification

(As defined by the OSHA Hazard Communication Standard, 29)

GHS classification:

Health hazards: Skin corrosion/irritation

Category 2 Category 2B

Eye damage/irritation Acute toxicity

Category 4

GHS label elements:

Signal word: Warning

**Hazard statement:** Causes eye irritation.

Causes skin irritation. Harmful if swallowed. Harmful if inhaled.

Sequestra<sup>™</sup> Page 1 of 6

**Precautionary statement:** 

**Prevention:** Avoid breathing dust/fume/gas/mist/vapor/spray.

Wash thoroughly after handling.

Wear eye protection, face protection, protective clothing, protective gloves.

**Response:** IF SKIN IRRITATION OCCURS: Get medical advice/attention.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get

medical advice/attention.

IF ON SKIN OR CLOTHING: Wash with plenty of soap and water. Take off

contaminated clothing and wash before reuse.

IF SWALLOWED: Call poison center or doctor/physician if you feel unwell.

**Storage:** Store in well ventilated place. Keep container tightly closed.

**Disposal:** Dispose of contents/container in accordance with local/regional/national/

international regulations.

Specific hazards: None available

## **Section 3: Composition Information**

Components CAS No.: % By Wt.:

Polyacrylates, polyhydroxy- tricarboxylic acid,

dipotassium phosphate and formulation aids Mixture 100%

### **Section 4: First-Aid Measures**

**Eye Contact:** Immediately flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes. Obtain medical attention without delay, preferably from an ophthalmologist.

**Skin Contact:** Immediately flush skin with water while removing contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

**Inhalation:** Move person to fresh air. If not breathing give artificial respiration. If breathing is difficult, oxygen should be administered by qualified personnel. Call a physician or transport to medical facility.

**Ingestion:** If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

# **Section 5: Fire Fighting Measures**

Suitable extinguishing media: Water spray, Foam solution, CO<sub>2</sub>, Dry chemical

Specific hazards arising from the chemical: None known

Protective equipment and precautions for firefighters: Assure self-contained breathing apparatus is worn. Fight fire

Sequestra<sup>™</sup> Page 2 of 6

from upwind. Prevent runoff if possible.

NFPA: Health: Flammability: Reactivity:

0

(Rating: 4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Insignificant)

#### Section 6: Accidental Release Measures

**Personal Precautions:** Isolate area. Keep unnecessary and unprotected personnel from entering the area. Refer to Section 7, Handling, for additional precautionary measures. Keep upwind of spill. Spilled material may cause a slipping hazard. Ventilate area of leak or spill. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Do not contaminate water.

**Methods for containment:** Stop the flow of material, if this is without risk. Collect and dispose of spillage as indicated in section 13. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up: Pick up spills with absorbent material and place in suitable properly labeled containers.

### **Section 7: Handling and Storage**

Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and

again when leaving work. Handle in accordance with good industrial hygiene and safety procedures

Storage: Store in a dry place. Store in original container. Do not store near food, foodstuffs, drugs or potable water

supplies.

# **Section 8: Exposure Controls / Personal Protection**

Occupational exposure limits: TLV: 1 mg/m<sup>3</sup>

#### **Engineering controls:**

Use engineering controls to maintain airborne level below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations.

#### Personal protective equipment:

Eye/Face Protection: Use chemical goggles

**Skin Protection:** Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, boots, apron, or full body suit will depend on the task. Safety shower should be located in immediate work area. Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly.

**Hand protection:** Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene. Nitrile/butadiene rubber ("nitrile" or "NBR") Polyvinyl chloride ("PVC" or "vinyl").

Sequestra<sup>™</sup> Page 3 of 6

**Respiratory Protection:** Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use an approved respirator. Selection of air-purifying or positive-pressure supplied-air will depend on the specific operation and the potential airborne concentration of the material.

### **Section 9: Physical and Chemical Properties**

Physical state: Liquid

Color: Colorless to straw

Form: Liquid Odor: Mild

Odor threshold: Not available Ph (neat)): 5.0 - 5.5Melting/freezing point: <33°F **Boiling point:** >212°F Flash point: >250°F **Evaporation rate:** Not available Flammability: Not available Flammability limits in air, lower: Not available Flammability limits in air, upper: Not available Vapor pressure: Not available Vapor density: Not available Relative density: 1.18 to 1.19 g/ml Solubility: Complete in water Octanol/water coefficient: Not available **Auto-ignition temperature:** Not available **Decomposition temperature:** Not available Viscosity: Not available

### **Section 10: Stability and Reactivity**

Chemical stability/instability: Stable at typical use temperatures.

**Conditions to avoid:** Avoid extreme temperatures and high alkaline conditions. **Incompatible materials:** Potassium chlorate, potassium nitrate, mild steel

Possibility of hazardous reactions: Will not occur

Hazardous decomposition products: Oxides of carbon and nitrogen

# **Section 11: Toxicological Information**

#### Toxicology data:

Components: Test results:

Polyacrylates, polyhydroxy-tricarboxylic acid, Acute oral LD<sub>50</sub> (rat): 1500 mg/kg

dipotassium phosphate and formulation aids

Acute dermal LD<sub>50</sub> (rabbit): No data available

Inhalation TCLO (human): 408 mg/l

Routes of exposure: Skin contact. Eye contact. Ingestion.

Acute effects: Skin irritation. Eye irritation. May cause discomfort if swallowed. Harmful if inhaled.

**Sensitization:** No data available **Chronic effects:** No data available

Carcinogenicity: No data available

Mutagenicity: Non-mutagenic for bacteria and/or yeast

Reproductive effects: No data available

**Teratogenicity:** No data available **Epidemiology:** No data available

**Skin corrosion/irritation:** Causes skin irritation **Eye damage/eye irritation:** Causes eye irritation

**Specific target organ toxicity – single exposure:** May cause respiratory irritation

Specific target organ toxicity - repeated exposure: Not classified

Other information: Not available

### **Section 12: Ecological Information**

#### **Ecotoxicological data:**

Components: Test results:

Persistence and degradability: Not established

Bioaccumulation: Not established

Mobility in soil: Not available

Other adverse effects: Avoid release to the environment.

## **Section 13: Disposal Considerations**

**Disposal methods:** Dispose of in accordance with label instructions and all applicable regulations.

**Contaminated packaging:** Dispose of in accordance with applicable federal, state and local regulations.

### **Section 14: Transport Information**

In accordance with ICAO/IATA/DOT/TDG:

UN number:

UN proper shipping name:

Transport hazard classes:

Packing group:

Environmental hazards:

Transport in bulk:

Not regulated

Freight Description: Agricultural Spray Adjuvant, Liquid, NOS

ERG Guide No.: 171

Sequestra<sup>™</sup> Page 5 of 6

### **Section 15: Regulatory Information**

International inventories:

TSCA: Complies
EINECS/ELINCS: Complies
ENCS: Complies
IECSC: Complies
KECL: Complies
PICCS: Complies
AICS: Complies

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Sections 311 and 312:

Immediate (Acute) Health Hazard: Yes
Delayed (Chronic) Health Hazard: Yes
Fire Hazard: No
Reactive Hazard: No
Sudden Release of Pressure Hazard: No

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Section 313:

• This product contains the following substances which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and which are listed in 40 CFR 372.

Component CAS No.: % By Wt.: SARA 313- Threshold values (%):

No components

#### **Section 16: Other Information**

Drexel Chemical Company recommends that each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown below. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific SDSs, we are not and cannot be responsible for SDSs obtained from any source other than ourselves. If you have obtained an SDS from another source or if you are not sure that the SDS you have is current, please contact us for the most current version.

Date Revised: January 30, 2017 Supersedes: November 24, 2015
