Page 2 of 4

- Extinguishing Media** : Use water fog, foam, dry chemical powder or carbon dioxide extinguishing agents. Do not direct solid streams of water into the hot burning liquid.
- Specific Hazards Arising from the Chemical** : Use water spray or fog to cool exposed containers. Closed containers of this material may explode when subjected to heat from surrounding fire. Decomposition products may include carbon dioxide, carbon monoxide and other asphyxiants.
- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective clothing.

### 6. Accidental Release Measures

- Personal Precautions** : Keep unnecessary personnel away. Remove ignition sources. Ensure adequate ventilation.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Do not allow spilled material to runoff and contact soil, waterways, drains and sewers.
- Methods and Materials for Containment and Cleanup** : For small spills, wipe up with noncombustible inert material. Clean surface thoroughly to remove residual contamination. For large spills, stop the flow of material, if able to do so without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb with clay, sand, earth or vermiculite. Collect and place into containers for proper disposal. Flush spill area with water, absorb, collect and place in suitable containers for proper disposal.

### 7. Handling and Storage

- Precautions for Safe Handling** : Observe good industrial hygiene practices.
- Conditions for Safe Storage** : Store in tightly closed container. Store away from incompatible materials.

### 8. Exposure Controls / Personal Protection

- TLV/PEL** : Oil mist, mineral: PEL=5 mg/m<sup>3</sup> (8 hours), TLV=5 mg/m<sup>3</sup> (8 hours, inhalable fraction).
- Appropriate Engineering Controls** : Local exhaust ventilation may be needed when handling or using this product to keep exposure to airborne contaminants below the exposure limit.
- Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
