Eye : Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

Skin : Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation : Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Ingestion : Call a poison control center or doctor immediately for treatment advice. Rinse out mouth and give water in small sips to drink. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth if unconscious.

Indication of Immediate Medical Attention and Special Treatment Needed : Contains hydrocarbon solvents. May pose an aspiration pneumonia hazard. Treat symptomatically. There is no specific antidote.

5. Fire Fighting Measures

Extinguishing Media : Use foam, dry chemical or water spray.

Specific Hazards Arising from the Chemical : No information found

Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective clothing. Fight fire from upwind. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses.

6. Accidental Release Measures

Personal Precautions : Keep unauthorized and unprotected personnel away from spill area. Avoid contact with spilled product or contaminated surfaces.

Protective Equipment : Splashproof goggles or face shield, chemical-resistant gloves, long-sleeved shirt and long pants, shoes plus socks. Eyewash should be available. Use NIOSH-approved respirator when needed.

Emergency Procedures : Use personal protective equipment. Do not allow to enter soil, waterways or drains.

Methods and Materials for Containment and Cleanup : Soak up with inert absorbent material (e.g., sand, silica gel, acid binder, universal binder, sawdust). Collect and transfer to a properly labeled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations.
