

Report 30-Jun-15 Date

Page 1 of 4

Identification

Product Name: TRACITE GHEP LIQUID MANGANESE 4-0-0

Synonyms: None

Product Use: Complexed Micronutrient - Manganese

Manufacturer/Supplier: Helena Chemical Company

Address: 225 Schilling Blvd. Collierville, TN 38017

General Information: 901-761-0050

Transportation Emergency Number: CHEMTREC:800-424-9300

Hazard Identification

Signal Word : Danger

Skin Irritation: Causes severe skin burns.

Eye Irritation: Based on pH, causes serious eye damage.

Acute Toxicity Oral : No LD50 available. Acute Toxicity Dermal : No LD50 available.

Hazard Categories: Oral/Dermal/Inhalation Toxicity-5/5/5; Eye Irritation-1; Skin Irritation-3;

STOT Repeated Exposure-2

Hazard Statement: May be harmful if swallowed

May be harmful in contact with skin

Causes severe skin burns and eye damage

May be harmful if inhaled May cause respiratory irritation May intensify fire; oxidizer

Composition / Information on Ingredients

Component

CAS Number Proprietary

Weight % 100.00

Blend of plant nutrients derived from manganese nitrate and manganese

glucoheptonate.

Note: The complexing agent is sodium glucoheptonate.

GUARANTEED ANALYSIS: Total Nitrogen (N): 4.00%

4.00% Nitrate Nitrogen Manganese (Mn): 10.00%

10.00% Water Soluble Manganese (Mn)

First Aid Measures

Eye: Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes.

Remove contact lenses, if present, after first 5 minutes, then continue rinsing

eye. Call a poison control center or doctor for further treatment advice.

Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Report 30-Jun-15 Date

2 of 4 Page

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance,

then give artificial respiration, preferably mouth-to-mouth, if possible. Call a

poison control center or doctor for further treatment advice.

Ingestion: Call a poison control center or doctor immediately for treatment advice. Rinse

mouth with water. Do not induce vomiting. Do not give anything by mouth if

unconscious.

Indication of Immediate Medical : In the event of an adverse response, treatment should be directed toward

Attention and Special Treatment control of the symptoms.

Needed

Fire Fighting Measures

Extinguishing Media: Non-combustible liquid. Use extinguishing media suitable for underlying cause

Specific Hazards Arising from the

Chemical

May emit toxic and irritating fumes under fire conditions. May act as an oxidizer

under fire conditions.

Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective equipment. Use

water spray to keep fire-exposed containers cool.

Accidental Release Measures

Personal Precautions: Keep unprotected and unnecessary personnel out of spill area.

Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and

footwear. Respiratory protection not normally needed. Eyewash and emergency

shower should be available in work area.

Methods and Materials for

Emergency Procedures: Do not contaminate water supplies, lakes, streams, ponds, drains or sewers. : If uncontaminated, recover spilled liquid for reuse. If contaminated, cover spilled

product with inert absorbent, such as clay or sand. Sweep or scoop up **Containment and Cleanup**

absorbent and place in suitable containers for proper disposal.

7. Handling and Storage

Precautions for Safe Handling: Keep locked up and out of reach of children. Do not contaminate water, food or

feed by storage, handling or disposal. Keep container tightly closed. Do not allow water to be introduced into the contents of the container. Use only stainless steel or PVC fittings due to corrosive nature of this product.

Conditions for Safe Storage : Store in original container only. Do not store near heat or open flame. Do not

store with oxidizing agents or ammonium nitrate. This product is corrosive to aluminum, mild steel and brass. Store and/or ship in polypropylene, fiberglass or

stainless steel containers.

Exposure Controls / Personal Protection

TLV/PEL: TLV - 0.2 mg/m3 (Manganese compounds as Mn). PEL - 5 mg/m3 (Manganese

Compounds as Mn).

Appropriate Engineering Controls : Local exhaust is sufficient.

Personal Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and

footwear. Respiratory protection not normally needed. Eyewash and emergency

shower should be available in work area.

Physical and Chemical Properties

Report 30-Jun-15

Page 3 of 4

Odor/Appearance: Clear, amber liquid with phenolic odor.

Flash Point, °F : Non-combustible Boiling Point, °F : >212 Degrees F.

Melting Point(Freezing point), °C : <32 Degrees F.

Vapor Pressure, mm Hg @ 20 °C : Not determined

Vapor Density: Not determined

Solubility in Water : Soluble

Molecular Formula: Not applicable, formulated mixture.

Density, g/mL @ 25 °C : 1.380-1.400 Evaporation Rate(Butyl Acetate = : Not determined

1)

Octanol/Water Partition : No information found

Coefficient

pH : <2.0

Flammable Limits (approximate : No information found

volume % in air)

Auto-ignition Temperature : Not applicable **Decomposition temperature** : No information found

10. Stability and Reactivity

Reactivity: No information found

Chemical Stability: Stable

Hazardous Decomposition : May produce oxides of carbon and nitrogen under fire conditions.

Products

Hazardous Polymerization: Will not occur

Conditions to Avoid: Avoid elevated temperatures.

Incompatible Materials: Products that react with acidic or oxidizing materials.

11. Toxicological Information

Acute Toxicity (Oral LD50) : No LD50 available. May be harmful if swallowed.

Acute Toxicity (Dermal LD50) : No LD50 available. May be harmful in contact with skin.

Acute Toxicity Inhalation LC50 : No LC50 available. May be harmful if inhaled. May cause respiratory irritation.

Likely Routes of Exposure : Skin, eyes, inhalation

Skin Irritation : Causes severe skin burns.
Eye Irritation : Causes serious eye damage.
Skin Sensitization : Not listed as a sensitizer.
Carcinogenic : Not listed as a carcinogen.
Chronic Effects : No information found.

Other Hazards : Specific Target Organ Toxicity (STOT), Single Exposure: May cause respiratory

irritation.

12. Ecological Information

Ecotoxicity: No information found

Persistence and Degradability: No information found Bioaccumulative Potential: No information found

Mobility in Soil: No information found **Other Adverse Effects**: No information found

13. Disposal Considerations

Report Date 30-Jun-15

Page 4 of 4

Waste Disposal Method : This material must be disposed of according to Federal, State or Local

procedures under the Resource Conservation and Recovery Act.

14. Transport Information

UN Proper Shipping Name : Manganese Nitrate, Solution

Transport Hazard Class : Oxidizer (5.1)
UN Identification Number : UN2724
Packaging Group : PG III

Environmental Hazards : No information found Transport in Bulk : No information found

Special Precautions for : Use ERG # 140. Ship only in polypropylene, fiberglass or stainless steel

Transportation containers.

Freight Classification: Fertilizing Compound, (Manufactured Fertilizer), Liquid, NOIBN (NMFC Item

68140, Sub 6, Class 70)

15. Regulatory Information

National Fire Protection

Association Rating

Health: 2 Fire: 2 Reactivity: 0

Rating Level: (4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Minimum)

S.A.R.A Title III Hazard : Classification (Yes/No)

Immediate(Acute) Health: Y
Delayed (Chronic) Health: N
Sudden Release of N

Pressure: Fire: Y Reactive: N

16. Other Information

Data of Preparation/Revision: 30-June-2015
