- Extinguishing Media** : Use foam, water spray, dry chemical or carbon dioxide extinguishing agents.
Specific Hazards Arising from the Chemical : May emit toxic fumes under fire controls.
Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective clothing. Prevent runoff of firefighting water.

6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area.
Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Use NIOSH-approved air-purifying respirator for organic vapors when needed. Eyewash and emergency shower should be available in work area.
Emergency Procedures : Contain spills to prevent runoff to any water sources or supplies.
Methods and Materials for Containment and Cleanup : Absorb small spills with an inert absorbent, such as clay, sand or dirt. Collect and place in suitable containers for proper disposal. Contain large spills to prevent runoff to any water sources or supplies.

7. Handling and Storage

- Precautions for Safe Handling** : Keep locked up and out of reach of children. Do not contaminate water, food or feed by storage, handling or disposal. Keep container tightly closed. Do not allow water to be introduced into the contents of the container.
Conditions for Safe Storage : Store in original containers only. Keep container closed when not in use. Do not store near food or feed. In case of spill on floor or paved surfaces, mop and remove to chemical waste storage area until proper disposal can be made, if product cannot be used in accordance with the label.

8. Exposure Controls / Personal Protection

- TLV/PEL** : Fluoroxypyr 1-Methylheptyl Ester: no TLV or PEL established. 2,4-D Acid: PEL=10 mg/m³, TLV=10 mg/m³
Appropriate Engineering Controls : General and/or local exhaust should be sufficient.
Personal Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Use NIOSH-approved air-purifying respirator for organic vapors when needed. Eyewash and emergency shower should be available in work area.
