

Material Safety Data Sheet

Trade Name: **VERSA Fe Liquid**
Registration No: None

Dated: 5/2/2013

Section 1 Product and Manufacturer Information

Name: Versa Fe Liquid
Synonyms: Liquid EDDHA Chelated Iron, etc.
Manufacturer: Rosens's Inc; P.O. Box 933, Fairmont, MN 56031. Phone: 800-792-2000
For Transportation Emergencies call Chemtrec at 800-424-9300
For Other Emergencies call 911 and/or Appropriate Regulatory Agencies

Section 2 Health Hazard Identification

Physical State: Liquid
Color: Dark Red
OSHA/HCS Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this MSDS contains valuable information critical to safe handling and proper use of this product. This MSDS should be retained and available for employees and other users of this product.
Emergency Overview: **Not expected to produce significant adverse health effects when the recommended instructions for use are followed.**

See toxicological information (Section 11)

General Information: Read the entire MSDS for a more thorough evaluation of the hazards.

Section 3 Composition / Information on Ingredients

| <u>Name</u> | <u>CAS #</u> |
|-----------------|-------------------|
| Versa Fe Liquid | Proprietary Blend |

Section 4 First Aid Measures

Eye Contact: Check for and Remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur.

| | |
|--------------------|--|
| Skin Contact: | In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if symptoms occur. |
| Inhalation: | Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms occur. |
| Ingestion: | Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. |
| Note to physician: | No specific treatment. Treat symptomatically. Call medical doctor or poison control center immediately if large quantities have been ingested. |

Section 5 Fire Fighting Measures

| | |
|---|--|
| Flash point: | Not Available |
| Hazardous thermal decomposition products: | Decomposition products may include the following: carbon dioxide, carbon monoxide. |

Extinguishing media

| | |
|---|---|
| Suitable: | Use an extinguishing agent suitable for the surrounding fire. |
| Not suitable: | None known. |
| Special exposure hazards: | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters: | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6 Accidental Release Measures

| | |
|-----------------------|---|
| Personal precautions: | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment (see Section 8). |
|-----------------------|---|

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7 Handling and Storage

Handling: Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Storage: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Product may suspend in layers if stored below 32° F. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8 Exposure Controls / Personal Protection

Consult local authorities for acceptable exposure limits.

Recommended monitoring procedures: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

Engineering measures: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this

product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Personal Protection

Respiratory: In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Hands: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Eyes: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modification to the process equipment will be necessary to reduce emissions to acceptable levels.

Section 9 Physical and Chemical Properties

Appearance: Dark red liquid.

Odor: Slight alcoholic scent.

pH: 7 to 9.

Freezing Point: Not available.

Boiling Point: 100°C (212°F)

Solubility in Water: Easily soluble.

Density: Not available.
Flash Point: Not available.
Flammable Limits: Not available.
Auto-ignition Temperature: Not available
Vapor Pressure: Not available.
Specific Gravity: 1.2
Density: Not available.
Vapor Density: Not available.

Section 10 Stability and Reactivity

Chemical stability: The product is stable. Under normal conditions of storage and use, hazardous reactions will not occur.

Hazardous polymerization: Under normal conditions of storage and use, hazardous polymerization will not occur.

Conditions to avoid: Product may suspend in layers if stored below 32° F.

Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11 Toxicological Information

This material is not known to be a toxicity hazard to humans.

Section 12 Ecological Information

This material is not known to present an ecological hazard.

Section 13 Disposal Considerations

This product is not defined as a hazardous waste by the U.S.E.P.A. Dispose of this product as recommended by federal, state, and local regulations.

Section 14 Transport Information

This material is not regulated as a hazardous material by the U.S.D.O.T. Use normal transportation safety precautions.

Section 15 Regulatory Information

SARA Title III Hazard Class: Not regulated

CERCLA Reportable Quantity: Not regulated
TSCA: Not regulated
RCRA Hazardous Waste Classification: Not regulated
Clean Air Act: Not regulated

State Regulation

Pennsylvania – RTK: Propylene glycol

California Prop 65: WARNING: This product contains less than 0.1% of a chemical known to the State of California to cause cancer.
WARNING: This product contains less than 0.1% of a chemical known to the State of California to cause birth defects or other reproductive harm.

| <u>Ingredient Name</u> | <u>Cancer</u> | <u>Reproductive</u> |
|---|----------------------|----------------------------|
| Lead and lead compounds (Measured as PB) | Yes. | Yes. |
| Arsenic and compounds | Yes. | No. |

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

Section 16 Other Information

Disclaimer: This information relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is to the best of our knowledge and belief, accurate and reliable as of the date compiled. However, no representation, warranty or guarantee is made as to its accuracy, reliability or completeness. No warranty of merchantability, fitness for any particular purpose, or any other warranty, express or implied, is made concerning the information herein provided. It is the user's responsibility to satisfy themselves as to the suitability and completeness of such information for their own particular use. We do not accept liability for any loss or damage that may occur from the use of this information not do we offer warranty against patent infringement.
