- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective clothing.

6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area. Avoid breathing mist/vapors. Ensure adequate ventilation.
- Protective Equipment** : Splashproof goggles or face shield, chemical-resistant gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Prevent further leakage or spillage if safe to do so. Do not let product enter into drains. Do not discharge into lakes, streams, ponds, drains, or other waters.
- Methods and Materials for Containment and Cleanup** : Contain spilled product with an inert absorbent material. Vacuum up as much liquid as possible. Place reclaimed product in a closed and properly labeled waste drum. Store drum in separate area until proper disposal. Flush residue with water, collect and place in containers with material for disposal.

7. Handling and Storage

- Precautions for Safe Handling** : Wear suitable protective clothing. Do not eat, drink or smoke during product handling. When opening a package, do it in a way to avoid leaks and formation of dust and aerosols.
- Conditions for Safe Storage** : Store in a cool, dry place and in such a manner as to prevent cross contamination with food, drink and animal feed. Separate from oxidizing materials like sodium hypochlorite. Store in original container and out of reach of children, preferably in a locked storage area. Keep container tightly closed and in a well-ventilated area.
