

SPECIMEN

AD-SORB FC™ SOIL WETTING AGENT

CONTAINS NON-PLANT FOOD INGREDIENTS

Active Ingredients

- 34.85% Alkylpolyglucoside
- 10.00% 1,2,3 tri-hydroxypropanetriol
- 0.30% Polydimethylsiloxane
- 54.85% Inert ingredients (water)

Store above 32°F.

Density: 9.1 lbs. per gallon at 68°F

KEEP OUT OF REACH OF CHILDREN

DANGER

CAUSES SKIN IRRITATION. CAUSES SERIOUS EYE DAMAGE.

PRECAUTIONARY STATEMENTS

Wash hands, forearms and face thoroughly after handling. Specific treatment see supplemental first aid instruction on this label.

Personal Protective Equipment (PPE): Wear chemical resistant protective gloves/coveralls over protective clothing including a shirt and pants/socks and shoes/eye protection/face protection. A face shield is required when cleaning equipment, mixing or loading. Take off contaminated clothing and wash before reuse. If clothing or other absorbent materials are heavily drenched with this product do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other washables.

FIRST AID Immediately call a poison center/doctor.

IF ON SKIN: Wash with plenty of water. If skin irritation occurs get medical attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

GENERAL INFORMATION

AD-SORB FC is a unique, soil wetting agent formulated to enhance the infiltration and uniform distribution of irrigation water and rainfall in a variety of soil types. AD-SORB FC will improve irrigation efficiency and increase soil moisture content.

Apply AD-SORB FC through injection systems or through the use of conventional spray equipment.

DIRECTIONS FOR USE

For Soil Moisture Management: Use 1 quart per acre of AD-SORB FC through any type of irrigation system. First application should be made at initial irrigation cycle. A follow-up application of 1 pint per acre is recommended two weeks after initial application. Continue with 1 pint per acre every 4 to 6 weeks. Schedule the last application of the season with the final full irrigation cycle.

Conventional Mix Tank Sprayers: Apply AD-SORB FC at 2% v/v (2 gallons per 100 gallons) of spray solution and apply at a rate of 1 to 4 pints per acre.

Conduct a jar test in advance to confirm tank mix compatibility. Fill tank mix 1/2 full with water, then add AD-SORB FC without agitation. Add remaining ingredients, fill with remaining water, then agitate. The addition of an antifoam agent will minimize foam.

For Use on All Agricultural Crops.

NOT A PLANT FOOD INGREDIENT.

NOT FOR AQUATIC USE.
