**GENERAL:** AMIGO® is specially formulated to increase the coverage of pesticides on plant surfaces after application. AMIGO is compatible with a wide variety of herbicides, fungicides, insecticides, plant growth regulators and foliar nutrients. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix.

**DIRECTIONS FOR USE:** AMIGO should be tested for compatibility prior to batch mixing. Some pesticides have stated adjuvant use rates. In all cases, the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and the label rate is followed. **Not for aquatic use in Washington.**
