## GENERAL INFORMATION

AMSURF® XTRA is a multi-functioning liquid ammonium sulfate-based water conditioner, surfactant, and drift reduction agent. AMSURF XTRA is designed to improve the performance of herbicides by reducing antagonism in the spray tank and improving coverage. AMSURF XTRA reduces fine droplets that result in spray drift\* while increasing spray deposition for improved uptake by the targeted weed species.

AMSURF XTRA at 2.5 gallons per 100 gallons:

- Delivers 8.5 lbs of ammonium sulfate
- Delivers 1 qt of surfactant blend
- Delivers an optimized rate of a drift reduction agent/deposition aid.

\*Spray drift reduction is dependent on many factors including equipment setup and weather conditions. For proper management of spray drift and spray deposition, all factors, including the condition and setting of the equipment and wind speed and direction, humidity and temperature must be taken into account.
