

AQUADRAFT™ X

Water Conditioning Agent, Nonionic Surfactant,

Humectant, Drift Reduction and Antifoaming Agent

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of drift reduction agent, water conditioning agent, nonionic surfactant, antifoam and formulation aids 100.00%
All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN WARNING

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Causes skin and serious eye irritation. May cause damage to organs through prolonged or repeated exposure. If medical advice is needed, have product container or label at hand. Read label before use. Do not breathe fume, mist, vapors or spray. Wash protective equipment and work clothes thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective clothing. Specific treatment is given in the First Aid section on this label or on the SDS.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this product should wear: protective eyewear, chemically impervious gloves, long-sleeved shirt, pants, socks and shoes. Consult the SDS for further information.

FIRST AID

If Swallowed:

Call a poison center/doctor if you feel unwell. Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If In Eyes:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

If On Skin:

Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention. Treat symptomatically. Take off contaminated clothing and wash it before reuse.

If Inhaled:

Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

Aquadraft X is a useful premix of water conditioning agents, drift reduction technology and surfactant. **Aquadraft X** performs with dicamba-based products and associated tank mixes by conditioning hard water while simultaneously reducing risk associated with particle drift.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and associated tank mixes may cause phytotoxicity to desirable crops. The applicator or crop advisor must have experience with the pesticide combination, including **Aquadraft X**, or must have conducted a phytotoxicity test before using this product.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND AND RIGHTS-OF-WAY. NOT FOR AQUATIC USE.

USE RATES

5 pints (0.625% v/v) of **Aquadraft X** per 100 gallons of spray solution with dicamba-based tank mixes.

2-3 quarts (0.5-0.75% v/v) of **Aquadraft X** per 100 gallons of spray solution with all other tank mixes.

MIXING

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

- a. Compatibility agent and/or antifoam, if needed
- b. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants
- c. Dry soluble and suspension fertilizers / micronutrients
- d. Liquid drift retardants and flowable formulations (F & FL)
- e. Liquid concentrates, suspension concentrates, microencapsulated and capsule suspension (LC, SC, ME, CS)
- f. Emulsifiable concentrates (E, EL or EC)
- g. Solutions and soluble liquids (S or SL)
- h. Liquid micronutrients and fertilizers
- i. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS)
- j. Finish filling to desired spray volume level and continue agitation

STORAGE AND DISPOSAL

This product must be stored above 32°F (0°C). Failure to do so may cause damage. Keep containers sealed when not in use.

Store in original container only. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE

LIMITED WARRANTY: Meristem Crop Performance ("MCP") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. MCP and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, MCP and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
