

Brandt® Smart B-Mo

Micronutrient Solution

Guaranteed Analysis

Boron (B)	5.0%
5.0% Water soluble boron	
Molybdenum (Mo)	0.5%

Derived from boric acid and sodium molybdate.

F76

General Information

BRANDT SMART B-Mo is specifically formulated for delivery of boron and molybdenum.

Rate Recommendations

Foliar Application

Field, Row, Vegetable and Vine Crops: Apply 0.5-1 pint per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.

Fruit and Nut Tree Crops: Apply 1-4 pints per acre per application throughout the growing season. More frequent applications at 2 pint per acre may be needed to correct deficiencies once they occur.

Ornamentals: Apply 1-2 pints per 100 gallons water. Cover foliage thoroughly to point of runoff.

Soil Application

All crops: Use 1-3 quarts per acre.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.

Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

Net Contents: 2.5 gallons (9.46 liters)

Density: 10.7 lb/gal @ 68°F

Net Weight: 26.5 lb (12.0 kg)

Packaged: 2 x 2.5 gallons (2 x 9.46 liters)
