

# BROADSPRED

## ORGANOSILICONE SURFACTANT

### PRECAUTIONARY STATEMENTS

**DANGER:** Hazardous to humans and domestic animals. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield when handling. Harmful if swallowed.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow proper procedures for the disposal of spray solutions. Rinse and dispose of empty containers according to approved local practices.

### CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Weather, crop conditions, timing and methods of applications, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.

### PRINCIPAL FUNCTIONING AGENTS

A blend of polydimethylsiloxane non-ionic surfactants..... 99.0%  
Constituents Ineffective as a Spray  
Adjuvant.....1.0%  
TOTAL 100.0%  
All ingredients are exempt from tolerance levels in CFR 40, 180,1001.

**KEEP OUT OF REACH OF CHILDREN**  
**DANGER**

**FIRST AID:** If this product gets into the eyes, wash the eyes with large amounts of water for at least fifteen minutes. Seek immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical treatment.

CA Reg. No: 1051080-50020

### GENERAL INFORMATION

BROADSPRED is a high quality non-ionic organosilicone surfactant. It is a superior wetting agent and penetrator designed for use with most pesticides. BROADSPRED will enhance the spreading and penetration of pesticide sprays when properly applied, especially on leafy vegetables and other crops with heavy foliage. It is recommended that the applicator first conduct a trial under similar crop and environmental conditions to determine the optimum rate.

### DIRECTIONS FOR USE:

To prevent foam, the addition of FOAMSTOP, an anti-foaming agent, is suggested before BROADSPRED is added to the spray water. Spray thoroughly, avoiding excess runoff of the spray solution.

Rates: Use 2 to 12 ounces per 100 gallons or per acre in spray solution. Use the lower rates in applications where low water rates are used.

Note: The above rates are considered to be adequate for most uses. Some herbicides may require higher rates for optimum uses. Follow the herbicide label directions when this occurs.

However, do not add this product at a rate that exceeds 5% of the finished spray volume.
