HAZARD STATEMENTS

Causes severe eye irritation. Causes serious eye damage. May cause an allergic skin reaction.

PRECAUTIONARY STATEMENTS

Do not breath mist/vapors/spray. Wash thoroughly after handling. Wear protective gloves/eye protection/face protection.

Store in original unopened container, locked up, in a well-ventilated place. Dispose of contents/container in accordance with local/national regulations. Do not freeze.

FIRST AID

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Call a POISON CONTROL CENTER or doctor/physician if you feel unwell.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CONTROL CENTER or doctor/physician if you feel unwell.

IF ON SKIN (or hair): Remove contaminated clothing. Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. If eye irritation persists: Get medical advice/attention.

Net Contents: 2.5 Gallons

GENERAL INFORMATION

CORNBELT® AMSTIK PLUS™ is a blend of Ammonium Sulfate and a proprietary nonionic surfactant blend designed to improve efficacy of Glyphosate and Glufosinate herbicides as well as other herbicides. CORNBELT® AMSTIK PLUS™ is specially designed for water conditioning to improve wetting and reduce surface tension of the spray droplet. CORNBELT® AMSTIK PLUS™ contains an anti evaporant Glycerol Humectant designed to resist drying of the spray droplet which causes crystal growth of the herbicide. CORNBELT® AMSTIK PLUS™ contains a built-in silicone anti-foam agent to minimize foam formation.

DIRECTIONS FOR USE

CORNBELT® AMSTIK PLUS™ is intended for use with products registered for agricultural, horticultural, turf, ornamental and non-crop uses.

WARNING: Read and follow all pesticide label directions. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture or should apply a small test area before making large-scale applications. The addition of an adjuvant to spray mixtures may cause phytotoxicity to susceptible crop and vegetation. Care should be exercised when using on new varieties or crops not previously treated with CORNBELT® AMSTIK PLUS™.

USE RATE: Use CORNBELT® AMSTIK PLUS™ at 5 quart to 5 gallon per 100 gallon of spray solution. The most common use rate is 2.5 gallon per 100 gallon of spray solution. 2.5 gallon of CORNBELT® AMSTIK PLUS™ per 100 gallon of spray solution provides 8.5 pounds of AMS and 1 quart of non-ionic surfactant. When environmental conditions, water quality and/or weed sizes will make weed control difficult, the higher rate in the rate range should be used.

Other adjuvants may be added for deposition, retention, canopy penetration and sticking. Specifically, CORNBELT® LOCKTITE™ may be added for increased deposition, canopy penetration and retention on the leaf surface improving the performance of many herbicides.

MIXING: Add CORNBELT® AMSTIK PLUS™ to the spray tank prior to adding the herbicide(s) to the spray mix.

PRECAUTIONARY STATEMENTS

Causes severe eye irritation. Causes serious eye damage. May cause an allergic skin reaction.

Do not breath mist/vapors/spray. Wash thoroughly after handling. Wear protective gloves/eye protection/face protection.

FIRST AID

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Call a POISON CONTROL CENTER or doctor/physician if you feel unwell.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CONTROL CENTER or doctor/physician if you feel unwell.

IF ON SKIN (or hair): Remove contaminated clothing. Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: Get medical advice/attention.
