Saskatoon, Saskatchewan S7T 0J1 ~ CAN

Telephone: 1-306-249-5112

1/0701/9

## **STORAGE AND DISPOSAL**

**STORAGE:** Store in secure area away from feed or food products. If frozen, bring back to room temperature, then shake well or re-circulate before use.

**CONTAINER DISPOSAL:** Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling rinsed containers is the best option of container disposal. Rinsed containers may also be disposed of in a sanitary landfill.

## **GENERAL INFORMATION**

CRIMSON® NG is an ammonium sulfate replacement that prevents glyphosate tie-up with free ions in the spray tank. CRIMSON® NG may be used in spray applications when the pesticide necessitates an ammonium sulfate or ammonium nitrogen additive.

## **DIRECTIONS FOR USE**

### **Shake well before using**

Carefully follow the precautions, restrictions, recommended use rates and application directions appearing on the pesticide label.

May be used with glyphosate potassium salt formulations.

May be used with pesticides registered for aquatic applications.

**MIXING:** Fill the spray tank half full with water and start agitation. Always add CRIMSON® NG first with the agitator running. Then add the glyphosate herbicide and continue to fill spray tank. Do not mix CRIMSON® NG with INTERLOCK® in an induction system or container when both products are undiluted. Once mixed in water, both products are compatible in either mixing order.

**USE RATE:** CRIMSON® NG may be used at a rate of 1 to 2.5 litres per 100 litres of spray solution depending on water hardness. Take water sample to determine water hardness.

**NOTE:** When applying aurally, follow pesticide label directions including minimum water volume per hectare. Do not substitute CRIMSON® NG for water required by the pesticide label.

## **NOTICE TO BUYER**

Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
