

## SPECIMEN LABEL

### ATTENTION:

This specimen label is provided for general information only.

*This product may not yet be available or approved for sale or use in your area. It is your responsibility to follow all Federal, state and local laws and regulations regarding the use of this product. Before using this product, be sure the intended use is approved in your area. FBN Inputs, LLC does not guarantee the completeness or accuracy of this specimen label. The information found in this label may differ from the information found on the product label. You must read and follow the label found on the product.*

## Drift Reduction / Deposition Adjuvant

### PRINCIPAL FUNCTIONING AGENTS

Soybean oil, polyethylene glycol fatty acid esters, octadecanoic acid.....100.00%

Note: Ingredients exempt from tolerance under 40 CFR 180

State Registration pending, where applicable

### KEEP OUT OF REACH OF CHILDREN

### WARNING

Hazard Statement: May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation

Precautionary Statements:

Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves.

### FIRST AID

If swallowed: Call a Poison Control Center or doctor/physician if you feel unwell. Rinse mouth.

If on skin: Remove contaminated clothing. Wash affected area with plenty of soap and water. Get medical attention if irritation persists.

If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth.

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

### PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear: • Protective goggles or safety glasses • Long-sleeved shirt and long pants • Chemical-resistant gloves, such as barrier laminate, butyl rubber, nitrile rubber or viton • Shoes plus socks. Follow manufacturer's instructions for cleaning PPE. If no such instructions exist, use detergent and hot water. Keep and wash PPE separately from other items.

### GENERAL INFORMATION

CROSSLOCK is a high-concentrate emulsifiable deposition aid and drift management adjuvant. When used properly, CROSSLOCK can increase on-target deposition of spray deposits, increases spray droplet retention on the leaf, and minimizes formation of spray fines that can move off-target or evaporate. It is suitable for use with most agrochemicals when used at recommended rates. This product may be used for ground or aerial application. CROSSLOCK requires no special handling or mixing procedures.

CROSSLOCK may be used with all nozzle types.

### DIRECTIONS FOR USE

CROSSLOCK may be used with agrochemicals and other products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop uses. Prior to use, read all directions on this label and on the label of the product to be applied. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture under local conditions.

NOTE: Some pesticides or pesticide tank mix combinations may cause phytotoxicity to susceptible crops when used with adjuvants. Use caution at higher application rates on sensitive crops. It is recommended that the applicator, user, advisor or crop consultant have experience with the combination before adding CROSSLOCK to spray mixes. Otherwise apply a small test area and check the results before widespread use. Exercise care when using CROSSLOCK for the first time on new varieties or crops.

Not for aquatic use.

### USE RATES

#### **Per-Acre Rates for Drift Management and Deposition**

Spray Volume, Gallons per Acre	Rate of CROSSLOCK. Fl oz / ac	One 2.5 gallon jug of CROSSLOCK treats
2 – 4	1 – 1.5	320 – 213 acres
5 – 7	1.5 – 2	213 – 160 acres
8 – 11	2 – 3	160 – 107 acres
12 – 14	3.5 - 4	107 – 80 acres
15 – 20	4.5 - 5	80 – 60 acres
> 20	6	53 acres

**For General Use** - a rate of 1 quart per 100 gallons of water is recommended.

Do not use CROSSLOCK at a rate in excess of 1% v/v.

Use a jar test to determine compatibility of tank mix components. Do not mix CROSSLOCK with other adjuvants or crop protection products in undiluted form.

## SPECIMEN LABEL

MIXING: Before using this product make sure spray equipment is clean and in proper working order, including tanks, lines, strainers and gauges. Follow all cleaning directions of the pesticide label. Fill spray tank one-half full with clean water and start agitation. Add pesticides in the following order, or as directed by the pesticide label: Dry flowables or water dispersible granules > Wettable powders > Flowables > Solutions > Emulsifiable concentrates. Continue filling. Add NUEVE last. Continue agitation.

*Important: Reducing spray drift depends on many factors, including equipment and weather conditions. Wind direction speed, temperature and humidity, nozzle type, equipment ground speed, boom height and spray pressure must be considered. CROSSLOCK will not prevent volatility or pesticide movement due to thermal inversions. Do not apply when thermal inversion conditions exist.*

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

### Storage:

Keep this container tightly closed. Store above 25 degrees F. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment wash water or spray disposal wastes. Do not store near feed or food products. Do not use or store near open flame. Do not store with ammonium nitrate or oxidizing agents.

### Disposal:

Triple rinse container and pour rinsate into spray tank. Do not reuse container. Offer triple-rinsed container for recycling, or puncture & dispose of in a sanitary landfill or by other procedures approved by appropriate authorities. Contact the Ag Container Recycling Council for information on how to recycle this container. [www.acrecycle.com](http://www.acrecycle.com)

In the event of a major spill, fire or other emergency, call 1-800-424-9300.

## CONDITIONS OF SALE AND WARRANTY

FBN Inputs, LLC warrants only that this product conforms to the product description on the label. Other than the foregoing Limited Warranty, this product is sold on an "as-is" basis. FBN Inputs, LLC disclaims to the fullest extent permitted by law, all other warranties of any kind, either express or implied, including, but not limited, to: the implied warranty of merchantability, the implied warranty of fitness for a particular purpose, that the use of this product will cause or result in any particular outcome, or the product's compatibility with other products. Some states do not allow limitations on how long an implied warranty lasts, so only portions of the above limitations may apply to user or buyer.

To the fullest extent permitted by law, under no circumstances and under no legal theory (including, without limitation, tort, contract, strict liability, or otherwise) shall FBN Inputs, LLC be liable to user or buyer for (A) any indirect, special, incidental, or consequential damages of any kind, including damages for lost profits or unrealized savings, crop loss, loss of yield, loss of goodwill, work stoppage, or (B) any amount, in the aggregate, in excess of the amount actually paid for this product, exclusive of taxes, shipping & handling, and any other applicable fees, or (C) any other matter. FBN Inputs, LLC further disclaims any liability for compensatory or other damages arising out of any use contrary to label directions. Some states do not allow the exclusion or limitation of certain damages, so only portions of the above limitations and exclusions may apply to user or buyer.
