GENERAL INFORMATION

FOR GROUND APPLICATIONS ONLY (INCLUDES BACKPACK AND HANDHELD SPRAYERS)

DO NOT USE WITH AIR BLAST SPRAYERS.

DILIGENCE-EA™ is specially formulated for use with most fungicides, herbicides and insecticides that are labeled for use in agriculture, forestry, golf course, industrial, non-crop, roadside, turf and ornamentals. DILIGENCE-EA is a deposition and drift control agent that reduces the number of spray droplet fines (<105 microns) and increases the Volume Median Diameter (VMD) of the spray droplets. DILIGENCE-EA generates a more uniform droplet size spectrum, which results in enhanced deposition and coverage of the spray onto the targeted surface.

NOTE: DILIGENCE-EA does not replace the need for additional adjuvants/surfactants in the spray tank.

Not for aquatic use in Washington state.

DIRECTIONS FOR USE

For optimal tank mix compatibility, add DILIGENCE-EA to plain water in a spray tank and fully mix and disperse before adding other tank mix partners, including water conditioning products. DILIGENCE-EA can be added and mixed while the tank is partially full. For tank mixtures containing boron, high salt or electrolyte concentrations or fertilizers/micronutrients, a jar test adding the products at the approximate rates and in the intended order of addition should be performed to identify potential incompatibility issues. When performing the jar test, add DILIGENCE-EA to the jar first and mix thoroughly before adding other products. Undiluted DILIGENCE-EA should not be allowed to contact other undiluted adjuvants, boron-containing products, fertilizers/micronutrients or undiluted pesticide products in eductor systems.

Proper nozzle selection and sprayer operation (pressure and spray angle) combined with good applicator evaluation and decision making regarding wind direction, temperature inversions, application speed and susceptible crops in the area are necessary to maximize the drift reduction potential of DILIGENCE-EA.

USE RATES

Carrier Volumes (gallons per acre)	DILIGENCE-EA Rate (fluid ounces per acre)
1 - 15	1
16 - 30	2

BACKPACK and HANDHELD SPRAYERS: Add 1 fluid ounce (2 tablespoons) of DILIGENCE-EA to 5 gallons of spray mixture.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly sealed. Store in closed storage area.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations. Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate. Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. The ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org.
