

ENERGYZE

Absorption Activator

AMS/Defoamer/Deposition Aid
Use with Herbicides, where Ammonium Sulfate is recommended.

GENERAL INFORMATION

Energyze contains a special high molecular weight polymer which is active at very low concentrations, providing improved spray deposition while minimizing off-target drifts. Ammonium sulfate and special ion-blocking agents condition the spray mix by complexing antagonistic metal cations which may interfere with herbicide activity. This water conditioning feature is very important with many post-emergent herbicides such as glyphosate. Energyze also contains anti-evaporants designed to increase the amount of spray reaching the target, and to allow for maximum absorption and penetration into the leaf surface. An integrated anti-foaming agent minimizes excess spray tank foam.

MIXING DIRECTIONS:

Always use and follow herbicide label for mixing instructions. In absence of specific mixing instructions, fill the spray tank to 1/3 to 2/3 full with clean water. While the water is agitating, add tank mix ingredients in the following order.

1. Energyze
2. Water-soluble packets
3. Dry flowables and dispersible granules
4. Flowables
5. Water-soluble pesticides
6. Emulsifiable concentrates
7. Add additional adjuvants

Maintain agitation while spraying to ensure a uniform spray mixture

DIRECTIONS FOR USE:

Shake well before using if product has been stored below freezing. Carefully follow directions for mixing. Always use this product in accordance with the instructions concerning additives found on the pesticide label.

CAUTION:

Keep out of reach of children. Liquid causes eye injury. In case of eye contact flush with water for 15 minutes. Call physician if irritation persists.

INGREDIENTS: (Percent by weight)

Ammonium Sulfate solution, Defoamer
Dimethylpolysiloxane and Polymeric
Viscosity Modifier.....100%

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal condition of use; but neither this warranty or any other warranty of merchantability of fitness of a particular product expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.

NET CONTENTS:

2 1/2 gallon _____
2 X 2 1/2 gallon _____
270 gallon tote _____
330 gallon tote _____

USE RATE:

1 to 2 Quarts per 100 Gallons of Water

MANUFACTURED FOR:

Delta **G**rowers **A**ssociation

313 S. Hwy 105
