

SPECIMEN LABEL

ATTENTION:

This specimen label is provided for general information only.

This product may not yet be available or approved for sale or use in your area. It is your responsibility to follow all Federal, state and local laws and regulations regarding the use of this product. Before using this product, be sure the intended use is approved in your area. FBN Inputs, LLC does not guarantee the completeness or accuracy of this specimen label. The information found in this label may differ from the information found on the product label. You must read and follow the label found on the product.

High Surfactant Methylated Seed Oil Adjuvant

PRINCIPAL FUNCTIONING AGENTS

Methylated seed oil.....	60.0%
Alcohol ethoxylate, alkylphenol ethoxylate.....	40.0%
TOTAL.....	100.0%

Note: Ingredients exempt from tolerance under CFR 40 180

State Registration pending, where applicable

KEEP OUT OF REACH OF CHILDREN

WARNING

Hazard Statement: May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation

PRECAUTIONARY STATEMENTS:

Do not get in eyes, on skin or on clothing. Wash hands, forearms, and other exposed areas thoroughly after handling. Do not eat, drink or smoke when using this product. Wear impervious gloves, protective clothing, and eye protection (goggles/full face shield). Do not breathe vapors, mist, or spray.

FIRST AID

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If on skin: Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse.

SPECIMEN LABEL

If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a Poison Center or doctor for advice.

If swallowed: Rinse mouth. Do not induce vomiting. Call a Poison Control Center or doctor if you feel unwell.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear: • Protective goggles or safety glasses • Long-sleeved shirt and long pants • Chemical-resistant gloves, such as barrier laminate, butyl rubber, nitrile rubber or viton • Shoes plus socks. Follow manufacturer's instructions for cleaning PPE. If no such instructions exist, use detergent and hot water. Keep and wash PPE separately from other items.

GENERAL INFORMATION

FBN HIGHSURF MSO is a high-surfactant methylated seed oil (MSO) adjuvant. It is formulated to be used at reduced rates compared to conventional MSO or crop oil concentrates. FBN HIGHSURF MSO is designed to improve the efficacy of agricultural and horticultural spray applications by increasing leaf cuticle penetration and retarding evaporation loss. FBN HIGHSURF MSO contains additional surfactants to improve spray coverage of target surfaces. FBN HIGHSURF MSO mixes easily in most spray tank mixtures. Rates of FBN HIGHSURF MSO may vary with plant and environmental conditions at the time of application.

Equipment hygiene and condition, environmental factors and sprayer calibration will affect the efficacy of spray mixtures that contain FBN HIGHSURF MSO. It may be necessary to periodically recalibrate the sprayer and adjust the adjuvant rate. When used according to the Directions for Use, FBN HIGHSURF MSO is compatible with most pesticides and fertilizers. Rates of FBN HIGHSURF MSO may vary with plant and environmental conditions at the time of application.

DIRECTIONS FOR USE

FBN HIGHSURF MSO may be used with agrochemicals and other products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop uses. Prior to use, read all directions on this label and on the label of the product to be applied. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture under local conditions.

NOTE: Some pesticides or pesticide tank mix combinations may cause phytotoxicity to susceptible crops when used with adjuvants. Use caution at higher application rates on sensitive crops. It is recommended that the applicator, user, advisor or crop consultant have experience with the combination before adding

SPECIMEN LABEL

FBN HIGHSURF MSO to spray mixes. Otherwise apply a small test area and check the results before widespread use. Exercise care when using FBN HIGHSURF MSO for the first time on new varieties or crops.

USE RATES

General Recommendation - Crop, Range & Pasture, T&O, Forestry, Industrial and Non-crop Use

Use a minimum of 4 to 8 fl oz per acre, or at 50% of the recommended rate of either conventional MSO or Crop Oil Concentrate. The following table provide more specific use guidelines

Rate Per Acre

Use Rate of Conventional MSO or Crop Oil Concentrate	Use Rate of FBN HIGHSURF MSO
0.5 pt/ac	0.25 pt/ac
1 pt/ac	0.5 pt/ac
1.5 pt/ac	0.75 pt/ac
1 qt/ac	1 pint/ac

Rate v/v%

Use Rate of Conventional MSO or Crop Oil Concentrate	Use Rate of FBN HIGHSURF MSO
0.5% v/v	1 qt/100 gal of water
1% v/v	2 qt/100 gal water

Use the higher rate where weeds are large, or where vegetation or crop canopy is heavy.

Basal Bark Applications

FBN HIGHSURF MSO can be mixed with oil soluble or miscible herbicides and, when allowed by the herbicide label, be used as the sole diluent or carrier. Thinline, streamline, high and low volume basal bark applications can be made with FBN HIGHSURF MSO and labeled herbicide mixtures. Suggested mixing rates when used as the sole carrier vary from 1% herbicide in 99% of FBN HIGHSURF MSO to 75% herbicide in 25% of FBN HIGHSURF MSO depending on herbicide and method of application. For specific dilution rates, consult the herbicide label for the product being used. Typical applications direct these mixtures onto the lower eighteen inches of individual brush and tree stems.

These rate recommendations are considered to be sufficient for most uses. Some pesticide labels may require higher or lower adjuvant rates. Read and follow the pesticide(s) label(s) and directions in such cases.

MIXING: Before using this product make sure spray equipment is clean and in proper working order, including tanks, lines, strainers and gauges. Follow all cleaning directions of the pesticide label. Fill spray tank one-half full with clean water and start agitation. Add pesticides in the following order, or as directed

SPECIMEN LABEL

by the pesticide label: Dry flowables or water dispersible granules > Wettable powders > Flowables > Solutions > Emulsifiable concentrates. Continue filling. Add FBN HIGHSURF MSO last. Continue agitation.

Note: Use a jar test to determine compatibility of tank mix components. Do not mix FBN HIGHSURF MSO with other adjuvants or crop protection products in undiluted form.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage

Keep this container tightly closed. Store above 25 degrees F. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment wash water or spray disposal wastes. Do not store near feed or food products. Do not use or store near open flame. Do not store with ammonium nitrate or oxidizing agents.

Disposal

Triple rinse container and pour rinsate into spray tank. Do not reuse container. Offer triple-rinsed container for recycling, or puncture & dispose of in a sanitary landfill or by other procedures approved by appropriate authorities. Contact the Ag Container Recycling Council for information on how to recycle this container. www.acrecycle.com

In the event of a major spill, fire or other emergency, call 1-800-424-9300.

CONDITIONS OF SALE AND WARRANTY

FBN Inputs, LLC warrants only that this product conforms to the product description on the label. Other than the foregoing Limited Warranty, this product is sold on an "as-is" basis. FBN Inputs, LLC disclaims to the fullest extent permitted by law, all other warranties of any kind, either express or implied, including, but not limited, to: the implied warranty of merchantability, the implied warranty of fitness for a particular purpose, that the use of this product will cause or result in any particular outcome, or the product's compatibility with other products. Some states do not allow limitations on how long an implied warranty lasts, so only portions of the above limitations may apply to user or buyer.

To the fullest extent permitted by law, under no circumstances and under no legal theory (including, without limitation, tort, contract, strict liability, or otherwise) shall FBN Inputs, LLC be liable to user or buyer for (A) any indirect, special, incidental, or consequential damages of any kind, including damages for lost profits or unrealized savings, crop loss, loss of yield, loss of goodwill, work stoppage, or (B) any amount, in the aggregate, in excess of the amount actually paid for this product, exclusive of taxes, shipping & handling, and any other applicable fees, or (C) any other matter. FBN Inputs, LLC further disclaims any liability for compensatory or other damages arising out of any use contrary to label directions. Some states do not allow the exclusion or limitation of certain damages, so only portions of the above limitations and exclusions may apply to user or buyer.
