- IF IN EYES: Rinse cautiously with water for several minutes.
- Remove contact lenses, if present and easy to do; continue rinsing.
- HANDLING: Wash hands, face and other affected areas thoroughly after handling.
- Handle under inert gas.

General Information

Tank Cleaner is designed for cleaning tanks, lines and nozzles to remove pesticide, herbicide and fertilizer residues.

Tank Cleaner also removes light rust and dissolves deposit buildups while leaving a protective film that helps prevent corrosion.

Special Precautions

After Use of Products Containing 2, 4-D Corners, cracks, hoses, seals, etc., tend to retain these materials and require special attention. After flushing with Tank Cleaner, rinse with water as directed, and retain a sample of the rinse water. Apply this sample to a susceptible plant, such as an ornamental, tomato, or vine. Observe after several hours (preferably 24 to 48 hours, depending on weather conditions). If wilting occurs, repeat cleaning process as recommended in the Directions For Use.

Directions For Use

Tanks or Sprayers Equipped with Hand Gun or Hose: Add one pound of Tank Cleaner to 100 gallons of water. Close valve to spray boom, open by-pass valve and agitate vigorously for 15 minutes. Use hand gun or hose to cleanse inside of tank. Open spray boom to flush tank cleaner and water solution out of tank. For sprayers being reused immediately, refill tank with 100 gallons of water, close hand gun valve and empty sprayer through boom nozzles. For sprayers being stored, do not rinse after treatment. Tank Cleaner leaves a protective film to prevent corrosion.

Tanks or Sprayers Not Equipped with Hand Gun or Hose: Fill tank with water and add one pound of Tank Cleaner per 100 gallons of water. Then follow above instructions. Important: For best results, fill tank with one pound of Tank Cleaner per 100 gallons of water, agitate and circulate throughout spray system, let stand 3 to 4 hours. Drain and rinse entire system thoroughly.

For Small Sprayer: Use one teaspoon per one gallon of water. Agitate vigorously, rinse with water, then repeat procedure.

For Cleaning Fertilizer Equipment: Flush equipment with water. Mix one pound of Tank Cleaner in 50 gallons of water and spray all parts that have been in contact with fertilizer with tank cleaner and water solution. Always flush with water before reuse.

Storage and Disposal

Store locked up. Keep container tightly closed and away from incompatible materials (soft metals and acids). Dispose of contents/container to local, state and federal regulations.

UN1759, CORROSIVE SOLIDS, n. o. s.
(Disodium Trioxosilicate & Sodium Hydroxide), 8, PG II - Limited Quantity

CONDITIONS OF SALE, LIMITED WARRANTY, AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of KALO, Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at KALO, Inc.'s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product purchased, or,
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
