

TRAINER[®]

TRAINER is an innovative fertilizer based on organic nitrogen derived from plant-based amino acids and peptides. This nitrogen is rapidly absorbed by leaves and translocated in plant tissue.

GENERAL INFORMATION

TRAINER may aid in reducing the effect of abiotic plant stresses such as heat, cold, drought, and salinity. It may help reduce the effect of some biotic stresses.

TRAINER improves plant growth and supports the most important phases (growth, flowering, fruit enlargement).

TRAINER enhances traditional fertilizer programs to help achieve high productivity and quality. The amino acids in **TRAINER** are known to improve productivity, physiological attributes, biochemical constituents and quality parameters.

USE INFORMATION AND DOSE

TRAINER is suitable for use on all growing plants.

For Average Conditions:

Foliar applications: Apply 16–64 fl. oz./acre during the growth cycle of the plant. Applications may be repeated up to 6 times per growing season.

Before using we recommend jar testing to evaluate compatibility with other products. Do not exceed recommended dose. Do not apply undiluted.
