

FLUID COMPOST

NATURAL SOIL AMENDMENT

INGREDIENTS:

Compost Extract, Humic Acid from Leonardite, Kelp (*Ascophyllum nodosum*), and azomite.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapco.org/metals.html>

KEEP OUT OF REACH OF CHILDREN PRECAUTION

Do not ingest. Avoid contact with skin, eyes or clothing.
Avoid breathing dust, vapor or mist.

For chemical spills, leaks, fire or exposure,
call CHEMTREC: (800) 424-9300.

FIRST AID

In all cases, call a poison control center or doctor for further treatment advice.

IF SWALLOWED, call a poison control center or doctor immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. **IF ON SKIN**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **IF INHALED**, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. **IF IN EYES**, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

DIRECTIONS FOR USE

BANDED APPLICATIONS: For banded applications (shank injection, band drench or seed line dribble) the treatment area is the area covered by the band, not the total cropland planted; as such, *the treatment rate will be proportionately less than the broadcast rate per acre found below.* Apply the specified dosage to the soil around the seed and to the covering soil as it fills in the furrow. The product should be below the seed and in the root zone as much as possible, with the exception of potatoes where it should generally be above the seed piece.

GENERAL APPLICATIONS: Use 20-40 gallons per acre in a minimum of two applications during the growing season, or as needed. Split applications should apply the majority of the material in the first application (2/3 of seasonal use) and the balance during the growing season (1/3). *Example:* Apply 30 gallons per acre per season in a minimum of two applications. The first application should be 20 gallons applied early in the season. Maintenance applications of 5-10 gallons can be made during the primary growth phase through the most convenient application means (water run or side-dress).

APPLICATION DIRECTIONS: For a seasonal total of 20-40 gallons per acre, use a combination of the application methods.

COMPATIBILITY

Avoid strongly acidic conditions and high concentrations of free ammonia. Do not mix with aqua ammonia, sulfuric acid, urea sulfuric acid, phosphoric acid, or soil fumigants. Do not place product in close proximity to anhydrous ammonia. No other known incompatibilities. Always jar test new combinations for compatibility prior to field mixing.

AGITATE WELL BEFORE USING

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Store in a safe manner. Store in original container only and keep tightly sealed when not in use. Dispose of unused product and empty containers in accordance with federal, state and local regulations.

Storage in a cone-bottomed tank to facilitate agitation is recommended. When stored in a cone-bottomed tank, agitate 10 minutes prior to use. When stored in a flat-bottomed tank, agitate 1 hour before use. Avoid air blast agitation as foaming may result. If foaming does occur through normal agitation, use an approved food-grade defoamer. Agitation is recommended once every month. Storage past 1 year is not recommended.

Conditions of Sale and Limitation of Warranty and Liability:

Notice: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using the product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of the product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of many different factors including, without limitation, manner of use or application, weather, combination with other products, or crop conditions. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Manufacturer and Seller harmless from any claims relating to such factors.

Seller warrants that this product conforms to the chemical description on the label. EXCEPT FOR THIS WARRANTY, THE PRODUCT IS FURNISHED "AS-IS," AND NEITHER SELLER NOR MANUFACTURER MAKES ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE SELECTION, PURCHASE OR USE OF THIS PRODUCT; SELLER AND MANUFACTURER SPECIFICALLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Buyer and User accept all risks arising from any use of this product, including without limitation uses contrary to label instructions, under abnormal conditions, or under conditions not reasonably foreseeable to (or beyond the control of) Seller or Manufacturer.

To the extent permitted by law, neither Manufacturer nor Seller shall be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE EXCLUSIVE LIABILITY OF MANUFACTURER AND SELLER, FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THIS PRODUCT, OR, AT THE ELECTION OF MANUFACTURER OR SELLER, THE REPLACEMENT OF THE PRODUCT.

These Conditions of Sale and Limitation of Warranty and Liability shall be interpreted in accordance with the laws of the State of California, excluding its conflicts of laws rules, and may not be amended by any oral or written agreement.
