Foam Melter

GENERAL INFORMATION

Foam Mether is a 10% active anti-foam emulsion designed for effective use with most surfactants in aqueous formulations, over a broad pH range, it is particularly effective with nonionic surfactants.

DIRECTIONS FOR USE Foam Melter can be used as received, or Foam Mefter can be used as received, or after dilution with water or other suitable process liquid. For best results, the emulsion should be mixed before use. Dilution can be accomplished by mixing 3 to 10 parts of the selected diluent to one part anti-foam with gentle stirring until a uniform mixture is obtained.

Continued gentle mixing of the diluted anti-foam is recommended to ensure product uniformity over extended storage times.

For best results, add Foam Melter to the tank mix before adding the agricultural chemicals.

Recommendations:

Suggested starting concentrations are 50 to 500 ppm anti-foam.

Foam Melter Parts per Million (ppm)

| Diluti | on |
|--------|------|
| (from | cont |
| 7 | |

| | As Received | Active |
|---------------------------------|-------------|----------|
| Silicone 1 pint in 1,250 gal | 100 | |
| 1 gal in 1,000 gal | 1,000 | 100 |
| 1 gal in 2,000 gal | 500 | 50 10 |

Conversion Factors: 1 gal = 3.785 liters; 1 pint = 0.473 liters

Note: Effectiveness will depend upon composition of spray mixture, temperature.

Adjust Foam Melter concentration as necessary to achieve desired foam control.

KEEP OUT OF REACH OF CHILDREN **Hazard Not Otherwise Classified Hazard Statements**

Constituents ineffective as spray adjuvant 90%

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor

IF SWALLOWED: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Call poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice

PERSONAL PROTECTIVE EOUIPMENT

PRINCIPAL FUNCTIONING AGENTS:

Applicators and other handlers must wear long-sleeved shirt and long pants, impermeable or chemical resistant gloves, protective eye-wear, and shoes plus socks. Follow manufacturer's instructions for cleaning & maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User should:

Wash thoroughly with soap and water before eating, drinking, chewing

gum, using tobacco, or using the toilet. Remove clothing immediately if it becomes contaminated with product, and wash before reuse. Wash skin thoroughly before putting on clean

Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or CONTAINER DISPOSAL: Inple finse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
