### GENERAL INFORMATION

FOLI-GRO® STACHE™ is designed primarily for foliar applications to prevent or correct nutrient deficiencies in pistachios. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality.

Application of FOLI-GRO STACHE is a means of obtaining a quick response to needed elements. Foliar applications of FOLI-GRO STACHE may be particularly beneficial during periods of peak nutrient demand, for crops grown on soils having poor nutrient availability or to crops suffering from a weakened root system.

FOLI-GRO STACHE should be used as part of a comprehensive Total Nutrition System® for optimizing plant growth, development, yield and quality.

### DIRECTIONS FOR USE

FOLI-GRO STACHE may be applied as a foliar spray by air, ground concentrate or dilute. Maintain agitation to provide uniform distribution within spray tank. Use of a high quality spreader, such as R-11® or RAINIER-EA™, at recommended rates to improve spray cover
