

Fulvic 5

Makes Micronutrients More Available to the Plant

Active Ingredients

Fulvic Acid Complex.....	5.0%
Inert Ingredients	95.0%
Total	100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION/PRECAUCION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Avoid Eye. If medical advice is needed, have product container or label at hand. Read label before use. Read all precautions of products being handled and follow the most restrictive language for all products to provide the safest work environment.

FOR CHEMICAL EMERGENCY: Spill, Leak, Fire, Exposure or Accident, Call 1-800-424-9300

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Rinse skin immediately with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INGESTED: Immediately call a poison control center or doctor. Dilute with large amounts of water. Do not induce vomiting unless directed to do so by a medical professional. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. If vomiting occurs, keep head lower than hips to prevent introduction of fluid into the lungs.

IF INHALED: Inhalation is not an expected route of exposure. If respiratory irritation or distress occurs remove victim to fresh air. Seek medical attention if respiratory irritation or distress continues.

In case of medical emergency, call toll free 1-877-424-7452

GENERAL INFORMATION

Fulvic 5 with CROPPLEX® Technology functions as a complexing agent for micronutrients and provides a source of added organic carbon which is necessary for healthy crops. The CropPlex® Technology in Fulvic 5 helps improve soil structure, nutrient absorption, stress tolerance, microbial growth, nutrient exchange and seedling growth.

DIRECTIONS FOR USE

SHAKE WELL OR RECIRCULATE BEFORE USE

Fulvic 5 is a fulvic acid complex derived from the plant active portions of Leonardite ore. Fulvic 5 is stable over a pH range of 2.0 to 12.0 so it can be formulated with both basic and acidic liquid fertilizer solutions. Fulvic 5 can be used alone or blended with liquid fertilizer mixtures containing micronutrients.

MIXING INSTRUCTIONS

Fulvic 5 can be used alone or blended with liquid fertilizer mixtures containing micronutrients. Fulvic 5 can be used with all crops including corn, soybeans, alfalfa, wheat, cotton, sunflowers, grain sorghum, and potatoes.

RECOMMENDED RATES

Soil application: 2 - 4 quarts per acre applied in furrow, banded, or side dressed.

Foliar application: 1 quart in 10 gallons of solution per acre to promote adsorption.

Drip irrigation: 2 - 4 quarts per acre for plant nutrition three times a year.

Salt Complexing: 1 gallon of Fulvic 5 will dissolve 0.33 lbs. of calcium carbonate scale.

Fulvic 5 is a soil amendment and not a fertilizer. It should always be used as part of a standard fertility program. Always read and follow label directions. A simple jar test is recommended to confirm compatibility.

STORAGE AND DISPOSAL

Distributed and Guaranteed by:

Winfield Solutions, LLC
P.O. Box 64589
St. Paul, MN 55164-0589

Weight Per Gallon: 8.55 lbs (3.88 kg)
Net Weight: 21.28 lbs (9.65 kg)
Net Contents: 2.5 gal (9.46L)

Storage: Store in a cool, dry place. Store in original container only. Do not store near feed or food. Store between 40°F and 120°F. DO NOT FREEZE. Do not contaminate water sources with equipment wash water, spray disposal wastes or by cleaning of equipment. Do not use or store near open flame.

Disposal: Do not reuse product containers. Triple rinse (or equivalent), then offer for recycling at an ACRC site (go to <http://www.acrecycle.org/> for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by local, state, and federal regulations.
