

Precautionary Statements

Do not breathe mist / vapors / spray.
Wash thoroughly after handling. Wear protective gloves / eye / face protection.

Environmental Hazards

Do not contaminate water sources by cleaning of equipment or disposal of waste waters.

NOT FOR AQUATIC USE

NET CONTENTS
2.5 Gallons (8.7 Liters)
2 X 2.5 Gallons (17.4 Liters)

MAX-IT

DRIFT & DEPOSITION MANAGEMENT AND WATER CONDITIONING AGENT

PRINCIPLE FUNCTIONING AGENTS

Ammonium sulfate, glycerol,	
phosphoric acid.....	35.0%
Constituents ineffective as	
spray adjuvants.....	65.0%
TOTAL.....	100.0%

All ingredients are exempt from the requirements
of a tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

HAZARD STATEMENTS

Causes skin irritation. Causes serious eye irritation.

First Aid

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If Swallowed: Rinse mouth. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Call a poison control center or doctor for treatment advice. Immediately call a poison center or doctor / physician if eye irritation persists.

If On Skin or Clothing (or Hair): Remove / take off immediately all contaminated clothing and wash before reuse. Rinse skin with water / shower. Call a poison control center or doctor for treatment advice.

GENERAL INFORMATION

MAX-IT is a multifunctional water conditioning, drift & deposition management concentrate formulated for use on transgenic and conventional crop varieties.

MAX-IT contains patented, high molecular weight viscosity modifiers and anti-evaporants that manage spray deposition and drift as follows:

- Minimized spray fines by inhibiting the formation of small droplets
- Reduced spray loss from evaporation due to humectant properties
- Increased spray droplet retention on targeted surface due to minimized droplet bounce or run-off.

The anti-evaporant ingredient in **MAX-IT** allows the spray to remain moist on the leaf surface for maximum absorption and cuticle penetration.

MAX-IT may be used when the pesticide label recommends the use of a deposition aid or drift control agent. It is not intended as substitute for surfactants or crop oil concentrates.

No product will provide 100% control of harmful spray drift. The efficacy of **MAX-IT** and the effects of the spray application may be affected by various environmental factors and the condition and operation of the spray equipment. Periodic calibration of spray equipment and visual inspection of the spray application may necessitate an adjustment of the adjuvant rate. When used according to the Directions of Use, **MAX-IT** is compatible with most pesticides and fertilizers. **MAX-IT** technology has been tested on several transgenic crop varieties with no negative effects, and can be considered safe for use on transgenic crops.

USE DIRECTIONS

MAX-IT is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop use. **MAX-IT** should be added to the diluted spray solution prior to the addition of any pesticides.

Ground and Air Rates

Normal Use:

2 to 3 quarts per 100 gallons of water

Hard Water:

3 quarts per 100 gallons of water

MAX-IT contains the equivalent of 2 pounds ammonium sulfate per gallon.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store at ambient temperature. Store in original, tightly closed container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national regulations.

EMERGENCY ASSISTANCE

For emergency assistance, call CHEMTREC at 800-424-9300.

NOTICE-READ CAREFULLY

CONDITIONS OF SALE AND WARRANTY

Integrated Agribusiness Professionals (IAP) warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purpose stated on such label only when used in accordance with the directions for use. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of IAP. In no case shall IAP be liable for the consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.

Except as expressly provided herein, IAP makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage.
