

Precautionary Statements

Wash thoroughly after handling. Wear protective gloves / eye / face protection.

Use Precautions

The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances which may increase the activity of spray solutions. Care should be exercised when using on new varieties or crops not previously treated with **PRO-TRON**.

Environmental Hazards

Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

APPROVED FOR AQUATIC USE

NET CONTENTS

2.5 Gallons (9.46 Liters)
2 X 2.5 Gallons (18.93 Liters)

PRO-TRON

NONIONIC SURFACTANT

A UNIQUE VEGETABLE DERIVED NONIONIC SURFACTANT AND CROP OIL REPLACEMENT

PRINCIPLE FUNCTIONING AGENTS

Vegetable oil ethoxylates, tall oil fatty acids.....	95.0%
Constituents ineffective as spray adjuvants.....	5.0%
TOTAL.....	100.0%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

HAZARD STATEMENTS

Causes mild skin irritation. Causes eye irritation.

First Aid

If Swallowed: Rinse mouth. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Call a doctor or get medical attention.

If on Skin or Clothing: Remove contaminated clothing and wash before reuse. Wash affected area with plenty of soap and water. If skin irritation occurs, get medical advice / attention.

If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth.

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice / attention.

GENERAL INFORMATION

PRO-TRON is a premium high concentrate 95% active low-foaming nonionic surfactant which will replace crop oil and modified seed oil concentrates.

PRO-TRON is a unique surfactant which improves the deposition and penetration of active ingredients into the target plant.

PRO-TRON contains free fatty acids to improve rain fastness and wash-off resistance.

PRO-TRON is designed for use with herbicides, fungicides, insecticides, defoliants, desiccants, plant growth regulators, and any other crop protection product where an oil concentrate or a nonionic surfactant is required or recommended.

An integrated antifoaming system helps minimize foam in the spray tank.

The efficacy of **PRO-TRON** and the effects of the spray application may be affected by various environmental factors and the condition and operation of the sprayer.

Periodic calibration of spray equipment and visual inspection of the spray application may necessitate an adjustment of the adjuvant rate.

When used according to the Directions for Use, **PRO-TRON** is compatible with most pesticides and fertilizers.

EMERGENCY ASSISTANCE

For emergency assistance, call CHEMTREC at 800-424-9300.

QUANTUM TECHNOLOGY

PRO-TRON is part of the QUANTUM Adjuvant Technology. QUANTUM can serve as a low use-rate replacement for crop oil, methylated seed oil and nonionic surfactants. Always follow pesticide label instructions regarding adjuvant use.

DIRECTIONS FOR USE

PRO-TRON is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, aquatic and non-crop uses.

CAUTION: Read and follow all pesticide label directions. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture or should apply a small test area before making large scale applications.

For pesticides where an oil concentrate is recommended, use the following rates:

Ground Application: 1 to 3 pints per 100 gallons of spray solution.

Air Application: 4 to 8 ounces per acre. Refer to pesticide label for minimum water volume per acre.

Aquatic Application: 2 to 4 pints per 100 gallons of spray solution.

MIXING

Add **PRO-TRON** to the spray mix last and continue agitation.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300.

Storage: Store above 25° F. Store in original, tightly closed container. Store in a well-ventilated place. Keep cool. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse container and pour rinsate into spray tank. Do not reuse container. Offer triple-rinsed container for recycling, or puncture and dispose of in a sanitary landfill or by other procedures approved by appropriate authorities. Dispose of contents/container in accordance with local/national regulations.

NOTICE-READ CAREFULLY

CONDITIONS OF SALE AND WARRANTY

Integrated Agribusiness Professionals (IAP) warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purpose stated on such label only when used in accordance with the directions for use. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of IAP. In no case shall IAP be liable for the consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.

Except as expressly provided herein, IAP makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage.
