

# ORGANIC WATER CONDITIONER

NON-PLANT FOOD INGREDIENT

**Active Ingredient:**  
34.0% Citric Acid  
**Inert Ingredient:**  
66.0% Water

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

KEEP OUT OF REACH OF CHILDREN

## WARNING

**Precautionary Statements:** Causes serious eye irritation. Wash hands thoroughly after handling.  
**Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers, or watercourses.  
**Personal Protective Equipment:** Wear eye protection/face protection.

### FIRST AID

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.  
**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water, if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.  
**If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.  
**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL 1-866-944-8565.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

### NET CONTENTS:

5 GAL (18.92 L)

260 GAL (984 L)

\_\_\_\_\_ GALLONS

DENSITY: 9.68 lbs./gallon @ 68° F

Manufactured for: Loveland Products, Inc.®  
P.O. Box 1286, Greeley CO 80632-1286

### GENERAL INFORMATION

LEAF LIFE® ORGANIC WATER CONDITIONER is a solution designed to help condition problem irrigation water on organic crops. It may be introduced to irrigation water by means of injection or metered flow. LEAF LIFE ORGANIC WATER CONDITIONER is a low pH product, therefore caution should be used when selecting storage and application equipment. A pH meter, pH strips or water analysis are common means necessary to determine final pH of irrigation water. Excessive use rates of LEAF LIFE ORGANIC WATER CONDITIONER may damage equipment.

### APPLICATION RECOMMENDATIONS

Application rates and expected results of LEAF LIFE ORGANIC WATER CONDITIONER are contingent on several factors. Because waters from different sources vary greatly in quality and pH, it is not appropriate to list a standard rate of application. In order to achieve the maximum benefit, it is in the user's best interest to first obtain a sample of his/her irrigation water and have it analyzed. Once the analysis results are reviewed, a benchmark can be established as a starting point to determine the role of applications. It may be necessary to perform a water titration by adding LEAF LIFE ORGANIC WATER CONDITIONER to a sample of irrigation water to determine the rate of injection based on the desired final pH. Please consult your crop advisor on matters concerning this product.

**Do not allow the final irrigation water pH to drop below 6.0. Effective results may be obtained over a range of pH values and is dependent on overall irrigation water quality.**

### STORAGE AND DISPOSAL

**STORAGE:** Store in a cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.  
**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container in accordance with local/national regulations. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org)
