LINK® 24-0-2 is designed primarily for foliar applications to prevent or correct nutrient deficiencies in turf and a wide range of ornamental plants. LINK 24-0-2 should be used as part of a comprehensive Total Nutrition System® for optimizing soil/nutrient conditions for plant growth, development and quality.

Application of LINK 24-0-2 is a means of obtaining a quick response to needed plant nutrients and beneficial elements. Foliar applications of LINK 24-0-2 may be particularly beneficial during periods of peak nutrient demand, for plants grown on soils having poor nutrient availability, for plants suffering from a weakened root system or for other plant stresses.

LINK products are formulated specifically for the professional market including greenhouse, field and container-grown nursery, sports turf, golf, lawn care, and landscape managers.

### DIRECTIONS FOR USE

When applying LINK 24-0-2, maintain agitation to provide uniform distribution within spray tank. If a spreader is desired or recommended in the mix, use a high quality CPDA approved spreader, such as RAINIER-EA® or DENALI-EA®, at recommended rates to improve spray coverage. Do not apply when plants are under excessive heat or moisture stress.

### TURFGRASS

Apply 25-50 ounces per 1,000 sq. ft. with sufficient water to prevent tip burn (2-4 gallons). Repeat as needed. Corresponding rates per acre are 8-17 gallons per acre in 80-160 gallons of water.

NITROGEN CONVERSION RATE:

Pounds of Nitrogen per 1,000 sq. ft.	Amount of 24-0-2 to apply per 1,000 sq. ft.

### PASTURE

As a foliar feed, apply 5 gallons per acre in a minimum of 10 gallons of total spray volume per acre. LINK 24-0-2 is a supplement for a broader nutrition program.

### COMPATIBILITY

LINK 24-0-2 is compatible with most liquid plant protection products. Always jar test new combinations for compatibility prior to field mixing.

**PRECAUTION:** The application rates listed are guidelines only to be used in the development of your nutrient management plan. The rates may not apply to your local growing conditions.
