GENERAL INFORMATION

MSO HIGH LOAD® is a 100% modified vegetable oil/surfactant blend that aids in penetration of a pesticide spray through the waxy cuticle. MSO HIGH LOAD is a multifunctional spray concentrate with wetting and penetrating properties.

MSO HIGH LOAD may be used in place of nonionic surfactants or crop oil concentrates in liquid spray mixtures. When used as directed, MSO HIGH LOAD maximizes the activity of certain pesticides; therefore, care must be taken when treating sensitive crops during periods when plants are subjected to drought stress, high temperatures, and high humidity.

DIRECTIONS FOR USE

Rates of MSO HIGH LOAD may vary with the conditions of application. Always add MSO HIGH LOAD last to the spray mixture while providing good agitation. Use MSO HIGH LOAD at a rate of 4 - 32 fl. oz./acre as a replacement for non-ionic surfactants and crop oil concentrates. The high end of the recommended use rate may be necessary during periods when plants are subjected to extreme stress or high weed populations.

For pesticides/herbicides that permit use of an adjuvant at a higher rate, follow instructions on that pesticide/herbicide label. **HOWEVER, DO NOT ADD THIS PRODUCT AT A RATE WHICH EXCEEDS 5% OF THE FINISHED SPRAY VOLUME EXCEPT WHEN USED AS A DILUENT IN DORMANT, BASAL, SITE PREPARATION OR OTHER SIMILAR APPLICATIONS, PER LABEL INSTRUCTIONS.**

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions take precedence over the directions for use referred to on this label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly sealed. Avoid storage below 32°F.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations.

Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law.

Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations.

Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate.

Alternatively, puncture and dispose of the container in a sanitary landfill or other procedures approved by state and local authorities. The ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org.
