GENERAL INFORMATION

N-TER 10[®] is a blend of a high quality nonionic surfactant and liquid 28% nitrogen. N-TER 10 can enhance the efficacy of those herbicides which recommend the use of 28% nitrogen. N-TER 10 brings together the benefits of nonionic surfactant activity and increased uptake from nitrogen into a convenient premix.

DIRECTIONS FOR USE

Add N-TER 10 to the spray tank mix at the rate specified by the herbicide label. See chart for information on rates. Before mixing spray solution, it is recommended that a compatibility test be performed in a small container. If all components of the spray mix are compatible, add the contents of the smaller container to the spray tank and begin mixing operation.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly sealed. Store in closed storage areas.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations.

Improper disposal of excess pesticide, spray mixtures or rinsate is a violation of federal law.

Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations.

Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate.

Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. The ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at
