

Noble®

Modified Vegetable Oil and Surfactant

Noble® is designed to benefit postemergence herbicides and certain insecticides, especially when applications are made under adverse environmental conditions such as extreme heat or low humidity.

PRINCIPAL FUNCTIONING AGENTS:

Methyl Soyate, Polyethylene glycol mono(branched p-nonylphenol) ether.....100.0%

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180.

SEE INSIDE LABEL FOR COMPLETE DIRECTIONS FOR USE, STORAGE AND DISPOSAL INFORMATION AND NOTICE OF WARRANTY.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye and skin irritation.
May be harmful if swallowed or inhaled.

PRECAUTIONARY STATEMENTS

Wash hands, face, and other affected areas thoroughly after handling. Do not eat, drink or smoke while using this product. Protect from freezing. Read and follow all applicable precautionary statements on the accompanying tank mix partner label(s).

Person Protective Equipment (PPE): Wear protective gloves, protective clothing and eye and/or face protection.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor for treatment advice if you feel unwell. Have the person rinse mouth and sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

IF INHALED: Call a poison control center or doctor for treatment advice if you feel unwell. Remove person to fresh air and keep comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.

IF ON SKIN OR CLOTHING: Call a poison control center or doctor for treatment advice if you feel unwell. Take off contaminated clothing. Wash with plenty of water. If skin irritation occurs: Get medical attention. Wash contaminated clothing separately before reuse.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **In Case of Medical Emergency, Call Toll Free 1-877-424-7452.**

GENERAL INFORMATION

Noble® is a multi-component spray adjuvant developed to maximize the performance of certain herbicides and insecticides in postemergent applications. This product is a replacement for non-ionic surfactants and crop oils (petroleum oils) in spray mixtures. Noble® has been widely tested and research indicates improved performance and consistency when combined with certain herbicides and insecticides.

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water sources with equipment wash water, spray disposal wastes or by cleaning of equipment.

DIRECTIONS FOR USE - READ ENTIRE LABEL BEFORE USING For Terrestrial Use Only - Not For Aquatic Use

REFER TO PESTICIDE LABEL FOR SPECIFIC CROP USE AND APPLICATION RATES. Read and follow the applicable restrictions and limitations and directions for use on all product labels involved in tank mixing. Follow the most restrictive directions for use of each product in the tank mixture.

SHAKE WELL BEFORE USE.

Use Noble® at 1.0 to 2.0 pints per acre with postemergent herbicides. The 2.0 pints per acre rate may be required if weed populations are extreme or if plants are stressed at the time of treatment. Noble® may be used at 1.0 to 2.0 pints per acre with insecticides, or at a final solution concentration of 0.125% to 1.00% (1 pint to 4 quarts per 100 gallons). Always add Noble® last to the spray mix and continue agitation or follow specific tank filling and mixing information provided on the pesticide label.

Special Caution: Noble® increases the effectiveness of herbicides. During periods of high temperatures or extremely humid conditions, herbicides become more active. It is recommended that a small test area be treated if such conditions prevail. Test areas are also recommended before treating new crop varieties or highly inbred crop lines.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry, well-ventilated area away from children, animals, food and feed products. Store in original container only. Keep containers tightly closed when not in use. Take care to prevent water from being introduced to the contents of this container. Do not use or store near open flame. Protect from freezing. If Noble® is stored below 32°F, it may become cloudy and thicken. Noble® should return to its normal, clear fluid state above 32°F.

Disposal: Do not reuse container. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the web page at www.acrecycle.org. Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. Dispose of contents/container in accordance with Federal, state and local regulations.
