GENERAL INFORMATION

NUT CHASER® is a water soluble foliar nutritional fertilizer of macro- and micro-nutrients. It is designed for foliar application and may be applied alone or in tank mixes containing pesticides. However, when use of an unfamiliar mix is made, a compatibility test is always recommended. Foliar fertilization is a supplement to a regular fertilizer program and will not supply the total nutrients required by a crop. NUT CHASER is recommended as a foliar nutrition to be applied to crops where disorders due to insufficient calcium are anticipated.

DIRECTIONS FOR USE:

Add approximately ½ of the required amount of water to the spray tank. With agitation running, add NUT CHASER to the spray tank. Continue agitation while adding the remaining required water. Maintain agitation until all of the mixture has been sprayed. Add NUT CHASER to the spray tank before adding pesticides. Do not store solution mixed with pesticide.

GENERAL APPLICATION RATES:

CROP: HAZELNUTS RATE/ACRE: Apply 2 to 4 pints/acre - 1st application; 4 pints/acre - 2nd application

NUMBER & TIMING OF APPLICATIONS: 1st application pre-fertilization, generally mid May. 2nd application at fertilization - generally mid June.

Rates suggested are for standard spray volumes of 40-150 gal/acre. For higher volume sprays, rate should be adjusted.

CAUTION: STORE NUT CHASER in temperatures between 41°F to 104°F and avoid extreme variations in temperature. A reversible separation of ingredients may occur after long storage, this however does not affect quality or effectiveness of the product. When applying to hazelnuts, use a high analysis organo silicone or a high analysis non-ionic surfactant during the recommended timings listed above. Avoid applications when temperatures are elevated > 95°F. Maximum effectiveness will be obtained when applied early in the morning or after dusk.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

STORAGE and DISPOSAL

STORAGE: STORE ABOVE 52°F. Shake well before using. Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. Store at ambient temperatures. Do not contaminate water, food, or feed by storage or disposal. **DISPOSAL:** Do not reuse container. Plastic: Triple rinse (or equivalent), adding rinse water to spray tank, then offer for recycling at an ACRS site (go to <http://www.acrecycle.org/> for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal.

HANDLING: Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.
