GENERAL INFORMATION

NUTRIO® BIOSOAK® is a premium additive designed to be added to irrigation water as a soil amendment and wetting agent. In addition, NUTRIO BIOSOAK also provides 3 million colony forming units of soil-enhancing bacteria per gallon. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality.

NUTRIO BIOSOAK should be used as part of a comprehensive Total Nutrition System® for optimizing plant growth, development, yield and quality.

DIRECTIONS FOR USE

IRRIGATION APPLICATIONS: Apply 5 gallons per acre into irrigation water.

TURFGRASS: Apply 5 gallons per acre (1 pint per 1,000 sq. ft.) in enough water for thorough coverage. For maximum effectiveness, irrigate within 12-24 hours to incorporate microbes into root zone.

NURSERY: Apply 5 gallons per acre (1 pint per 1,000 sq. ft.) with sufficient water to incorporate into root zone.

ROOT INJECTION

Trees and Shrubs: Dilute 2-5 gallons of NUTRIO BIOSOAK in 100 gallons of water. Calibrate equipment to deliver 8-10 ounces of dilute mix per injection. Inject every 2 feet around the drip line, and then again at the same interval, 3 feet out and 3 feet in from the dripline. The end result will be 3 concentric rings of injections around the tree.

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.aapfco.org/metals.html

LANDSCAPE ORNAMENTALS:

New Plantings: Mix 1-2 ounces per gallon of water and drench planting with 2-3 gallons per plant/tree/shrub.

Established Landscapes: Mix 1-2 gallons in 100 gallons of water and apply enough solution to wet the root zone.

NUTRIO BIOSOAK can be applied through center pivot or drip irrigation systems, but check your water source prior to application for calcium or other impurities. Always jar test with water source for precipitation prior to actual field use.

COMPATIBILITY

The compatibility of NUTRIO BIOSOAK with other products may vary. Always jar test new combinations for compatibility prior to field mixing.
