GENERAL INFORMATION

OnTarget™ is a unique spray adjuvant, specifically designed to maximize pesticide performance when applying pesticides through nozzles that are classified to produce extremely-coarse and ultra-coarse droplet spectrums. **OnTarget™** reduces the amount of spray droplets that have a high potential to move off target in a ground application. **OnTarget™** should be used in conjunction with proper spray equipment selection, set-up, and use including boom height, nozzle type, size and pressure. Along with good judgment and the proper selection and use of spray equipment, **OnTarget™** can help professional applicators ensure the maximum performance of pesticides.

DIRECTIONS FOR USE

OnTarget™ may be used when spraying pesticides in a ground application through nozzles that deliver a droplet spectrum that is categorized as extremely and ultra coarse.

Rates of application

OnTarget™ may be used at a rate of 0.5% v/v.

Mixing Instructions

Add OnTarget™ after wettable powders, dry flowables, liquid flowables, and suspensions but before emulsifiable concentrates and other adjuvants. Agitate after adding **OnTarget™** for five minutes before beginning spray application. Follow specific tank mix filling and mixing information provided on the herbicide label. Refer to other pesticide labels for additional recommendations or precautions.

Before mixing pesticides with **OnTarget™**, conduct a jar test to determine compatibility.

DO NOT use OnTarget™ through a direct injection system.

Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
